This funding is requested to compensate for the change in the Federal Medical Assistance Percentage (FMAP). Each year the Centers for Medicare and Medicaid Services (CMS) revises the percentage of Medicaid costs the federal government will reimburse to each state. FMAP varies by state and is based on criteria such as per capita income. Effective October 1, 2025, the blended FMAP rate will decrease from 65.500% to 64.658%. The enhanced FMAP rate for the CHIP children and the Women with Breast or Cervical Cancer program will decrease from 75.853% to 75.263%. This change will result in a net cost shift from Federal to GR funds for the Departments of Mental Health, Health and Senior Services, and Social Services. In order to realign the federal match, the Governor recommended an NDI for additional general revenue authority as well as corresponding core reductions in federal authority.

The Federal Authority is Social Security Act 1905(b).

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

Since the federal fiscal year (FFY) does not begin until the second quarter of the state fiscal year (SFY), a SFY blended rate is applied to the SFY core funding. This blended rate is derived by adding the old FFY rate (65.31%) for three months (July thru September) and the new FFY rate (64.44%) for nine months (October thru June) and dividing by 12 months, resulting in a SFY blended rate of 64.658%. This same procedure is applied to the enhanced federal match for the CHIP program and the women with Breast or Cervical Cancer program. The enhanced old FFY rate of 75.72% for three months (July thru September) and the new FFY rate of 75.11% for nine months (October thru June) results in an enhanced SFY blended rate of 75.263%. In order to continue current core funding, these blended rates are applied to the SFY26 core funding resulting in a revised mix of federal and state shares while maintaining the same total. Additionally, for Foster Care the participation rate (# of children eligible for IV-E FMAP) dropped from 43.71% to 43.05%, the Adoption participation rate grew from 89.23% to 90.09%, and the Guardianship participation rate dropped from 69.75% to 69.12%.

The FY 2026 budget includes appropriation authority for a time of service adjustment plan for full-time state employees. This would provide a 1% salary increase for every two years of continuous state service and would cap out at 10% for 20 years of service. This excludes job classes with statutorily-set salaries, the Departments of Transportation and Conservation, and certain job classes within the Missouri State Highway Patrol, who have existing time of service pay structures. State employees working in 24/7 facilities that already have this time of service pay plan will get a one percent cost of living adjustment. This also includes a one percent cost of living adjustment for Department of Social Services Children's Division.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

The appropriated amounts for the Fiscal Year 2026 pay plan are based on current time of state service for all full-time employees.

### 2. CORE DESCRIPTION

The Office of the Director serves as the focal point for leadership and coordination across the Department.

The Director articulates and reinforces the Department's vision and goals to the programs within the Department and provides advice and counsel on public health and senior services issues to the Governor and the Legislature. The Director of the Department of Health and Senior Services facilitates the Department's partnership with local public health agencies, Area Agencies on Aging, and other organizations addressing public health and senior issues. The Director's Office staff provide administrative leadership, support, coordination, and oversight for the entire Department. Staff within the Director's Office coordinate press releases and respond to media requests on health information and the Department's social media posts, work on organizational development issues, provide counsel on regulatory and licensure actions, pursue guardianships for eligible adults, and provide legal assistance to all Departmental Divisions. This also includes the Employee Disqualification List (EDL) program that manages all aspects of the statutorily mandated EDL process, including complaint investigations indicating possible abuse, neglect, misappropriation of funds or property, and falsification of service delivery documents by employees.

### 3. PROGRAM LISTING (list programs included in this core funding)

### 2. CORE DESCRIPTION

The Division of Administration provides administrative and financial support services for the Department of Health and Senior Services.

The Division assists the efforts of the programmatic divisions to provide services to Missourians in a cost-effective manner that assures fiscal accountability for taxpayer dollars. The Division of Administration processes all grant applications, initiates federal draws related to grants, and prepares required federal and state financial reports. In addition, the Division reviews and processes all contracts and procurements to ensure that services and commodities are economically obtained; processes all payments to vendors; assesses program performance and compliance with state and federal requirements; maintains an inventory of physical assets to ensure the fiscal integrity of state property; operates warehouse, delivery, and mailroom services for the Department; and works with the Office of Administration to manage building leases and related issues that arise with a workforce that operates from state office buildings and leased facilities spread across the state. This core includes the Office of Human Resources, which ensures compliance with state personnel law, personnel functions/employee relations, professional development, and recruitment. Department-wide operating expenditures such as telecommunications, postage, vehicle fleet operations, copy machine repair, paper, envelopes, building security, and freight services are paid from the Division's budget. The Division also prepares the Departmental budget submission and responds to budget-related inquiries and fiscal note requests from the Office of Administration and the legislature.

<b>DEPARTMENT REQUEST</b>	
The Department requests continuation of fifty percent (50%) flexibility for refunds between federal and other funds granted by the Legislature in FY 2026.	
<b>2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.</b>	
<b>PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED</b>	<b>CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>
\$0	AB 10.620 language allows up to fifty percent (50%) flexibility between federal and other funds.
<b>BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>	
Expenditures will differ annually based on the needs of the department. Refunds are processed in cases of duplicate payment, over payment, or payment in error. The Department's requested flex will allow it to return citizen monies in a timely manner and utilize available resources in the most effective manner as the need arises. The Department cannot predict how much flexibility will be utilized.	
<b>3. Please explain how flexibility was used in the prior and/or current years.</b>

**2. CORE DESCRIPTION**

The Department of Health and Senior Services (DHSS) is authorized to receive other funds for health-related purposes pursuant to Chapter 192, RSMo.

The appropriation authority provided by this core is used by the department if new grant funding is received during the fiscal year and inadequate appropriation authority exists. The legislature and the Office of Administration are notified by DHSS prior to expenditure of such funds.

### 2. CORE DESCRIPTION

Qualified community-based faculty preceptors who serve as the preceptor for a medical student core preceptorship or a physician assistant student core preceptorship shall be allowed a credit against the tax otherwise due under Chapter 143, excluding withholding tax imposed under sections 143.191 to 143.265, RSMo.

Section 135.690.2(4), RSMo, allows no more than 200 preceptorship tax credits shall be authorized in a calendar year, which are awarded on a first-come, first-served basis. By statute, the credit is an amount equal to \$1,000 for each preceptorship, up to a maximum of \$3,000 a year. Section 135.690.2(4), RSMo, does not allow the tax credit to exceed \$200,000 per year. Funding for this tax credit is generated from a portion of license fees for physicians, surgeons, and physician assistants and deposited into the Medical Preceptor Fund. After the end of each tax year an amount equal to the total dollar amount of all tax credits claimed will be transferred to general revenue.

**2. CORE DESCRIPTION**

The General Assembly appropriated one dollar for transfers from the department's core budget to the State Legal Expense Fund for the payment of claims, premiums, and expenses provided by Section 105.711 through Section 105.726, RSMo.

In order to fund such expenses, the General Assembly also authorized three percent flexibility from the Department's operating budget into the one dollar transfer appropriation.

### 2. CORE DESCRIPTION

Chronic disease control and prevention programs coordinate initiatives to help Missourians prevent and control chronic diseases through blood pressure and cholesterol management, promotion of health screening and early detection of disease, increased knowledge of signs and symptoms of heart disease and stroke, and reduction of health disparities through various activities. The Department supports multiple evidence-based interventions such as chronic disease self-management, quality improvement initiatives in the healthcare system which improve care services, leveraging the reach of chronic disease programs through collaborations with stakeholders and partnerships, providing screening services through community providers, and maintaining the Organ and Tissue Donor Registry to increase the number of people who receive life-saving transplants.

Some of the Department's programs and activities include:

- **Show Me Healthy Women (SMHW):** The program, funded by the Centers for Disease Control and Prevention, provides free breast and cervical cancer screening and diagnostic services to eligible low-income women age 35 and older with the goal of reducing the mortality rate of breast and cervical cancer for Missouri women. SMHW also receives general revenue funding and donations to provide services to eligible clients.
- **WISEWOMAN:** The goal of WISEWOMAN is to reduce risk factors for heart disease in women in the SMHW program. Only SMHW clients who are low-income, under-insured and age 40 to 64 years old are eligible for WISEWOMAN services. Services include health screenings for heart disease risk factors, such as high cholesterol, high blood pressure, obesity, and diabetes.
- **Comprehensive Cancer Control Program:** This program partners with many dedicated individuals, professionals, and cancer survivors who share expertise, resources, and ideas to develop a statewide cancer plan and tackle cancer priorities that are too broad to confront alone. The program and its partners support healthy lifestyles, recommend cancer screenings, educate people about cancer symptoms, increase access to quality cancer care, and enhance cancer survivors' quality of life.
- **Missouri Alzheimer's Disease Program:** This program works with individuals and groups to implement prevention and education activities, including those in the Alzheimer's State Task Force Plan, for Alzheimer's and related dementias .
- **Missouri Asthma Prevention and Control Program (MAPCP):** This program addresses asthma from a public health perspective in order to reduce the impact of asthma in Missouri. The goals of MAPCP are reduce asthma deaths, emergency department visits, hospitalizations, missed school days and missed work days.
- **Missouri Organ and Tissue Donor Program:** This program has two primary purposes, to educate the public and bring awareness to the importance of giving life through organ, eye and tissue donation; and to promote and maintain a statewide registry (Donor Registry System or DRS). The DRS is a statewide, confidential registry of more than 3.2 million potential organ and tissue donors, available to procurement agencies and the public 24/7 year-round.

<b>PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED</b>	<b>CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>
\$0	AB 10.700 language allows up to thirty percent (30%) flexibility between personal service and expense and equipment. Due to variance in needs and general unpredictability, it is difficult to anticipate if flexibility will be used.
<b>BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>	
Expenditures will differ annually based on needs to cover operational expenses, address emergency and changing situations, etc. In addition, the level of Governor's reserve, restrictions, and core reductions impact how the flexibility will be used, if at all. The Department's requested flex will allow the Department to utilize available resources in the most effective manner as the need arises. Flexibility between Appropriation bill sections will allow for transparency. The Department cannot predict how much flexibility will be utilized.

**3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

This NDI is for additional federal authority to expend funds in accordance with grant objectives as DHSS received additional Preventative Health and Health Services Block Grant (PHHS) funds from the Centers for Disease Control (CDC) in October 2024. PHHS funds are required to be utilized to address unique public health needs with innovative, community-driven methods. This includes addressing emerging health gaps, supporting local programs to achieve healthy communities, and establishing data and surveillance systems to monitor health status. The Department will use the additional authority to support expansion of current projects, as well as establish new projects to improve the health of citizens statewide.

From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

This request for an increase in federal authority will allow the Department to accept increased federal funding from the CDC. DHSS will utilize these additional funds to support current operations and expand programs. Additional PS authority is requested to expand the worksite wellness program to Missouri employers across the state and assist them with implementing new and improving current worksite wellness programs. Also, additional PS authority is requested to continue supporting our 115 local public health agencies by providing technical assistance to local agencies related to the claiming of CHIP HSI funds, contracting, invoicing, and the allowable use of federal funds through contracts issued through the Center for Local Public Health at DHSS. The remaining PS authority requested will support the administrative functions required by this grant, which reflects the increase allowed by the CDC. The remaining EE and contract dollars requested will enhance the food safety program by developing an electronic data collection and management platform to monitor and prevent food borne illnesses; expand and enhance the community health worker program for Missouri to support the growing workforce; and develop and implement processes and tools to analyze the quality of incoming data to the Department.

### 2. CORE DESCRIPTION

Communicable disease control and prevention programs improve the health of Missourians through the comprehensive prevention, intervention, and surveillance programs related to over 90 reportable communicable (or infectious) diseases and conditions of public health significant in Missouri. There are four program areas: general communicable diseases, healthcare-associated infections and antimicrobial resistance, tuberculosis elimination, and zoonotic diseases. These programs improve the health of Missourians through the control of communicable diseases and communicable disease outbreaks.

These programs provide the following services:

- Conducting surveillance and investigation activities for more than 90 different communicable diseases and conditions of public health significance in Missouri. The majority of the diseases are mandated for reporting by healthcare providers and clinical laboratories.
- Responding to communicable disease threats such as anthrax, Ebola, healthcare-associated carbapenemase-producing organisms, influenza, multi-drug resistant tuberculosis, measles, mpox, rabies, Rocky Mountain spotted fever, and West Nile virus.
- Providing training and technical assistance to local health officials on the application of epidemiologic methods to rapidly identify, respond to cases, and outbreaks of communicable diseases of public health importance. The prompt identification and implementation of appropriate control measures prevents additional illnesses occurring in Missouri.
- Coordinating with government at all levels, community organizations, hospitals, health care providers, and the media to implement control measures, and educate the public during local, statewide, national, and worldwide outbreaks of communicable diseases.
- Assisting with community planning and response for emergencies such as bioterrorism, pandemic influenza, other pandemics, and natural disasters such as flooding and earthquakes. Program staff are also responsible for public health surveillance, disease investigation, and disease related community education associated with these events.
- Providing vaccines to eligible children and adults through the federal entitlement Vaccines for Children (VFC) Program and Public Health Act Section 317 (VFC/317) funding.
- Offering education, immunization record assessments, and quality improvement strategies for health care professionals to increase coverage rates and providing technical assistance to health care providers and the general public regarding vaccine recommendations, safety, schedules, and other general information.
- Maintaining a central immunization registry, ShowMeVax, which houses immunization records and is used to conduct immunization validations required for school and childcare; forecasts need and manages centralized vaccine inventory; and allows providers to order vaccine and track shipments.
- Preventing and controlling vaccine-preventable outbreaks in vulnerable populations through immunization of VFC/317-eligible populations.

<b>DEPARTMENT REQUEST</b>	
Based on the recommendations of the Legislative body in previous years, DHSS has worked to create and breakdown CORES within DCPH in order to provide more transparency. The Department requests thirty percent (30%) flexibility between personal service in Sections 10.700, 10.705, 10.710, 10.725, 10.730, 10.735, 10.740, 10.745, 10.750, 10.755, 10.760, 10.765, 10.770, 10.775, 10.780, and 10.790, and thirty percent (30%) flexibility between expense and equipment in Sections 10.700, 10.705, 10.710, 10.725, 10.730, 10.735, 10.740, 10.745, 10.750, 10.755, 10.760, 10.765, 10.770, 10.775, 10.780, and 10.790 in order to ensure continuity of operations during the transition.	
<b>2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.</b>	
<b>PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED</b>	<b>CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>
N/A	AB 10.705 language allows up to thirty percent (30%) flexibility between personal service and expense and equipment. Due to variance in needs and general unpredictability, it is difficult to anticipate if flexibility will be used.
	<b>BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>
	Expenditures will differ annually based on needs to cover operational expenses, address emergency and changing situations, etc. In addition, the level of Governor's reserve, restrictions, and core reductions impact how the flexibility will be used, if at all. The Department's requested flex will allow the Department to utilize available resources in the most effective manner as the need arises. Flexibility between Appropriation bill sections will allow for transparency. The Department cannot predict how much flexibility will be utilized.
<b>3. Please explain how flexibility was used in the prior and/or current years.</b>

This NDI is requesting funds to support the Children's Health Insurance Program (CHIP) Immunization program, which is expected to grow due to an increase in the CHIP population. CHIP is a federal entitlement program that provides health insurance to children whose parents do not qualify for Medicaid but cannot afford open-market insurance. These families are charged a monthly premium and the child receives a Medicaid card. However, the child is not Medicaid eligible as CHIP is considered private insurance. The Department of Health and Senior Services (DHSS), covers these required school aged immunizations with funds it receives to purchase the immunizations to be administered to children enrolled in CHIP as they are not eligible for the Vaccines for Children Program. DHSS purchases immunizations through the Centers for Disease Control and Prevention for providers to order as needed for the CHIP-eligible population. This program covers all immunizations recommended by the Advisory Committee on Immunization Practices (ACIP). Immunizations are one of the most successful public health interventions in reducing disease spread and are recommended throughout a child's life to protect against serious, sometimes deadly diseases.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

Each year DHSS receives the CHIP population counts from MOHealthNet. Utilizing those numbers and the current cost of immunizations, DHSS and the Centers for Disease Control (CDC) estimate the cost to provide immunizations to CHIP participants. The CHIP population estimates received for fiscal year 2023 were 47,337 children. The population estimate for fiscal year 2024 was 64,480, and by the fourth quarter of federal fiscal year 2024 that population grew to 80,671. This is an increase of 33,334 children enrolled in CHIP, which equates to a \$2,687,866 increase in funding needed to operate the CHIP program for Missouri. Expenditures for this program are incurred at the Federal Medical Assistance Percentage (FMAP), thus, this request reflects the current fiscal year 2025 FMAP split.

### 2. CORE DESCRIPTION

The Community Health and Wellness Initiatives programs implement evidence-based interventions to improve health risks and reduce disparities in communities, child care centers, schools, and worksites to reduce tobacco use and exposure to secondhand smoke; prevent unintentional injuries and overdose incidents; support access to substance use disorder treatment, recovery and prevention services; reduce teen pregnancies; reduce obesity; improve maternal, infant and child health; and improve the management of chronic diseases for children in the school setting. The program accomplishes these by sharing staff knowledge and expertise, providing resources and programs, and fostering local, state, and federal partnerships. Activities focus on system-level and policy changes that create environments where making a healthy choice is the easy choice.

The initiative activities include the following:

- Providing professional development opportunities for stakeholders such as childcare providers, school health and food service professionals, local public health agencies, and employers.
- Developing and disseminating resources such as toolkits on increasing physical activity in childcare, implementing farm-to-preschool programs, passing and implementing school tobacco use policies, implementing worksite wellness programs, navigating youth mental health crises, and implementing naloxone protocols in schools.
- Providing technical assistance and consultation services to a variety of stakeholders on reducing tobacco use and exposure to secondhand smoke; preventing unintentional injuries; reducing teen pregnancy; reducing obesity; improving maternal, infant and child health; and improving the management of children with chronic disease in the school setting.
- Overseeing Missouri Tobacco Quit Services, which provides tobacco cessation services, including phone and online coaching programs and nicotine replacement therapies to eligible callers.
- Administering contracts to local agencies to implement evidence-based prevention strategies, including 10 Safe Kids contracts to provide local injury prevention services; MCH Services contracts with 111 LPHAs to support building and expanding a community-based system to respond to priority health issues, ensure access to quality MCH services, reduce health disparities and promote health within the MCH population; and technical assistance contracts with subject matter experts to assist communities with implementation of smoke-free air policies, complete streets policies, food service guidelines, and other various system and policy change strategies.
- Providing leadership across state and national organizations to create cohesive strategies to catalyze change, including leading the Missouri Injury and Violence Prevention Advisory Committee and Council for Adolescent and School Health.
- Conducting outreach campaigns such as Connect with Me, a campaign to encourage adults to have conversations with youth regarding healthy development, and other campaigns to raise awareness of the harms of exposure to secondhand smoke, tobacco and youth vaping use, and cannabis use.

## FLEXIBILITY REQUEST FORM

<b>BUDGET UNIT NUMBER:</b> 790025B <b>BUDGET UNIT NAME:</b> Community Health and Wellness Initiatives <b>APPROPRIATION BILL SECTION:</b> 10.710	<b>DEPARTMENT:</b> Department of Health and Senior Services (DHSS) <b>DIVISION:</b> Division of Community and Public Health (DCPH)
<b>1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.</b>	
<b>DEPARTMENT REQUEST</b>	
Based on the recommendations of the Legislative body in previous years, DHSS has worked to create and breakdown CORES within DCPH in order to provide more transparency. The Department requests thirty percent (30%) flexibility between personal service in Sections 10.700, 10.705, 10.710, 10.725, 10.730, 10.735, 10.740, 10.745, 10.750, 10.755, 10.760, 10.765, 10.770, 10.775, 10.780, and 10.790, and thirty percent (30%) flexibility between expense and equipment in Sections 10.700, 10.705, 10.710, 10.725, 10.730, 10.735, 10.740, 10.745, 10.750, 10.755, 10.760, 10.765, 10.770, 10.775, 10.780, and 10.790 in order to ensure continuity of operations during the transition.	
<b>2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.</b>	
<b>PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED</b>	<b>CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>
\$0	AB 10.710 language allows up to thirty percent (30%) flexibility between personal service and expense and equipment. Due to variance in needs and general unpredictability, it is difficult to anticipate if flexibility will be used.
<b>BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>	
Expenditures will differ annually based on needs to cover operational expenses, address emergency and changing situations, etc. In addition, the level of Governor's reserve, restrictions, and core reductions impact how the flexibility will be used, if at all. The Department's requested flex will allow the Department to utilize available resources in the most effective manner as the need arises. Flexibility between Appropriation bill sections will allow for transparency. The Department cannot predict how much flexibility will be utilized.	
<b>3. Please explain how flexibility was used in the prior and/or current years.</b>	
<b>PRIOR YEAR EXPLAIN ACTUAL USE</b>	<b>CURRENT YEAR EXPLAIN PLANNED USE</b>
Not applicable.	Not applicable.

**2. THIS REQUEST CAN BE CATEGORIZED AS:**

Program Expansion

**3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

This NDI requests additional appropriation authority to be able to utilize available additional grant funding for the Sexual Risk Avoidance Education (SRAE) grant. The SRAE grant's goal is to educate exclusively on sexual risk avoidance and teach youth to voluntarily refrain from sexual activity. The program is designed to teach youth personal responsibility, self-regulation, goal setting, healthy decision-making, a focus on the future, and the prevention of youth risk behaviors such as drug and alcohol use without normalizing teen sexual activity. These additional funds would be dispersed to current contractors to increase their capacity to offer evidence-based pregnancy prevention programs at the high school level. Additionally, these funds would allow for possible expansion to the curriculum of Adolescent and School Health Program by providing a training of educators and curriculum materials to implement supplemental lessons within their current offerings.

DHSS anticipates receiving approximately \$70,000 in additional SRAE grant funds that will be used to increase current contracts to expand and enhance the work currently being performed by DHSS.

### 2. CORE DESCRIPTION

The Division of Community and Public Health operates the Substance Use Disorder (SUD) grant program that is funded with proceeds from the Veterans, Health and Community Reinvestment Fund.

Per Article XIV, of the Missouri Constitution, the Division may use these funds for grants to agencies and not-for-profits to increase access to evidence-based, low-barrier drug addiction treatment programs, support overdose prevention education, and to support job placement, housing, and counseling for those with substance use disorders. Agencies and organizations serving populations with the highest rates of drug-related overdose shall be prioritized to receive the grants. Grants are awarded to develop new or support existing recovery support services for priority populations impacted by substance use disorder.

**Budget Unit 790127B and 790110B****Bill Section 10.1010 and 10.1015**

Article XIV Section 2 provisions of the Missouri Constitution specify that there be funding provided from the Veterans, Health, and Community Reinvestment Fund to the Missouri Department of Health and Senior Services (DHSS) with the purpose of providing grants to agencies and not-for-profits to increase access to evidence-based, low-barrier drug addiction treatment prioritizing medically proven treatment and overdose prevention and reversal methods and public or private treatment options with an emphasis on reintegrating recipients into their local communities, to support overdose prevention education, and to support job placement, housing, and counseling for those with substance use disorders. This NDI will provide an additional \$19,469,560 to support the initiatives listed above and \$1,325,325 will support hiring additional DHSS SUD grant-funded Department of Mental Health (DMH) community-employed Youth Behavioral Health Liaisons (YBHLs) who support youth experiencing behavioral health, including mental health and substance use challenges, by quickly connecting them and their families with resources within their community. YBHLs provide short-term service connections between youth, their families, and their local Certified Community Behavioral Health Clinics (CCBHCs). Their work focuses on responding to referrals, building relationships with community stakeholders to support youth, and providing education on youth behavioral health. The requested funding supports the SUD program goal to increase health outcomes and prevent and reduce the prevalence of substance use disorders and/or drug-related harms, including overdose. This funding was first appropriated to DHSS during state fiscal year 2025.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

Pursuant to Article XIV Section 2 provisions of the Missouri Constitution, DHSS must utilize their portion of the remaining adult use revenue to provide grants to agencies and not-for-profits to increase access to evidence-based, low-barrier drug addiction treatment prioritizing medically proven treatment and overdose prevention and reversal methods and public or private treatment options with an emphasis on reintegrating recipients into their local communities, to support overdose prevention education, and to support job placement, housing, and counseling for those with substance use disorders.

### 2. CORE DESCRIPTION

This portion of the Division provides leadership, oversight, and general supervision for the division staff and programs/initiatives in accordance with the mission, goals, and values of the Department; and ensures compliance with state and federal laws and regulations.

This is achieved through the following activities:

- Reviewing and approving budget requests, grant applications, contracts, purchase requests for goods and services, personnel actions, publications, and correspondence with contractors, consumers, other external partners and stakeholders.
- Providing fiscal management and support to all programs within the Division to ensure spending plans are developed and followed according to grant guidance and appropriations.
- Assistance in procuring approved purchase requests, and timely payment of invoices.
- Assistance with policy development, personnel and human resource management, coordination between programs and OA-ITSD for maintenance and implementation of public health information systems, strategic planning, and assurance of effective and efficient programs.
- Providing and coordinating responses to a variety of requests, including fiscal notes, sunshine requests, legislative requests, internal operation requests, and general public inquiries.

## FLEXIBILITY REQUEST FORM

<b>BUDGET UNIT NUMBER:</b> 790113B <b>BUDGET UNIT NAME:</b> Division of Community and Public Health Administration <b>APPROPRIATION BILL SECTION:</b> 10.725	<b>DEPARTMENT:</b> Department of Health and Senior Services (DHSS) <b>DIVISION:</b> Division of Community and Public Health (DCPH)
<b>1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.</b>	
<b>DEPARTMENT REQUEST</b>	
Based on the recommendations of the Legislative body in previous years, DHSS has worked to create and breakdown CORES within DCPH in order to provide more transparency. The Department requests thirty percent (30%) flexibility between personal service in Sections 10.700, 10.705, 10.710, 10.725, 10.730, 10.735, 10.740, 10.745, 10.750, 10.755, 10.760, 10.765, 10.770, 10.775, 10.780, and 10.790, and thirty percent (30%) flexibility between expense and equipment in Sections 10.700, 10.705, 10.710, 10.725, 10.730, 10.735, 10.740, 10.745, 10.750, 10.755, 10.760, 10.765, 10.770, 10.775, 10.780, and 10.790 in order to ensure continuity of operations during the transition.	
<b>2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.</b>	
<b>PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED</b>	<b>CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>
\$0	AB 10.725 language allows up to thirty percent (30%) flexibility between personal service and expense and equipment. Due to variance in needs and general unpredictability, it is difficult to anticipate if flexibility will be used.
<b>BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>	
Expenditures will differ annually based on needs to cover operational expenses, address emergency and changing situations, etc. In addition, the level of Governor's reserve, restrictions, and core reductions impact how the flexibility will be used, if at all. The Department's requested flex will allow the Department to utilize available resources in the most effective manner as the need arises. Flexibility between Appropriation bill sections will allow for transparency. The Department cannot predict how much flexibility will be utilized.	
<b>3. Please explain how flexibility was used in the prior and/or current years.</b>	
<b>PRIOR YEAR EXPLAIN ACTUAL USE</b>	<b>CURRENT YEAR EXPLAIN PLANNED USE</b>

### 2. CORE DESCRIPTION

The Emergency Preparedness and Response programs manage public health and healthcare planning and response to emergencies primarily through the Public Health Emergency Preparedness and Cities Readiness Initiative and the Hospital Preparedness Program Grants. Examples of emergencies include: floods, tornadoes, earthquakes, influenza pandemics, disease outbreaks, environmental hazardous spills, biological and chemical terrorism, and nuclear power plant accidents. Through partnerships with local public health agencies (LPHAs), hospitals, other health organizations, local government, law enforcement agencies, schools, and other partners, systems are put in place to protect the health of Missourians during a public health emergency.

Some of the activities within the Office of Emergency Coordination include:

- Assures consistency and coordination of state and local public health plan development and public health emergency response for bioterrorism, pandemic, and other public health emergencies and assures consistency and coordination among local, state, and federal partners. Provides direction and technical assistance to health care providers, including hospitals, community health centers, trauma centers, LPHAs, healthcare coalitions, etc., regarding preparedness for pandemic influenza, bioterrorism, surge capacity, and mass fatalities; may be disseminated through the Health Notification System (MOHNS).
- Maintains the public health Emergency Response Center (ERC), which can be quickly activated and fully staffed to function as a public health emergency operations center in a disaster. During non-threatening times, ERC staff maintains situational awareness on a national, state, and local level by monitoring Web-based systems as well as media and through communications with emergency response partner agencies. The Public Health Emergency Hotline's toll-free number is answered 24 hours a day, seven days a week.
- Houses the Missouri Rapid Response Team (MRRT): The MRRT responds to complex, multi-jurisdictional foodborne illness outbreaks and contamination. The team combines environmental public health, epidemiology and laboratory capabilities while it also includes team members from the Department, the Missouri Department of Agriculture and the U.S. Food and Drug Administration (FDA). The team is able to find the causes that lead to foodborne illness and contamination by leveraging considerable resources, adding efficiencies including the Incident Command System (ICS), and streamlining communications. By finding the causes sooner, outbreaks can end sooner, fewer people become ill, and businesses recover faster.
- Maintains the Radiological and Chemical Emergency Response Program, which by state statute, oversees the response to any radiological incident within the state. The program provides identification, sampling, and protective action recommendations for nuclear power plants and other radiological production facilities. The program inspects radioactive material shipments, locates lost or orphaned radioactive sources, and provides training and subject matter expertise to first responders throughout the state.
- Provides command, control and direction for the state's Emergency Support Function 8 (ESF-8) Health and Medical response in public health emergencies. Working in conjunction with the State Emergency Operations Center, the office provides situational assessments, coordinates resource requests, and activates response staff and operations.

## FLEXIBILITY REQUEST FORM

<b>BUDGET UNIT NUMBER:</b> 790046B <b>BUDGET UNIT NAME:</b> Emergency Preparedness and Response <b>APPROPRIATION BILL SECTION:</b> 10.730	<b>DEPARTMENT:</b> Department of Health and Senior Services (DHSS) <b>DIVISION:</b> Division of Community and Public Health (DCPH)
<b>1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.</b>	
<b>DEPARTMENT REQUEST</b>	
Based on the recommendations of the Legislative body in previous years, DHSS has worked to create and breakdown CORES within DCPH in order to provide more transparency. The Department requests thirty percent (30%) flexibility between personal service in Sections 10.700, 10.705, 10.710, 10.725, 10.730, 10.735, 10.740, 10.745, 10.750, 10.755, 10.760, 10.765, 10.770, 10.775, 10.780, and 10.790, and thirty percent (30%) flexibility between expense and equipment in Sections 10.700, 10.705, 10.710, 10.725, 10.730, 10.735, 10.740, 10.745, 10.750, 10.755, 10.760, 10.765, 10.770, 10.775, 10.780, and 10.790 in order to ensure continuity of operations during the transition.	
<b>2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.</b>	
<b>PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED</b>	<b>CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>
\$0	AB 10.730 language allows up to thirty percent (30%) flexibility between personal service and expense and equipment. Due to variance in needs and general unpredictability, it is difficult to anticipate if flexibility will be used.
<b>BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>	
Expenditures will differ annually based on needs to cover operational expenses, address emergency and changing situations, etc. In addition, the level of Governor's reserve, restrictions, and core reductions impact how the flexibility will be used, if at all. The Department's requested flex will allow the Department to utilize available resources in the most effective manner as the need arises. Flexibility between Appropriation bill sections will allow for transparency. The Department cannot predict how much flexibility will be utilized.	
<b>3. Please explain how flexibility was used in the prior and/or current years.</b>

This NDI is requesting increased federal appropriation authority for the Public Health Emergency Preparedness (PHEP) grant. This authority is being transferred from the State Emergency Management Agency (SEMA) to the Department of Health and Senior Services (DHSS). This appropriation will specifically support the implementation of the Ready in Three Program and Partner Readiness Evaluation Program activities. These activities were previously overseen by SEMA, but both parties agreed to transfer those duties, federal funds, and appropriation authority back to DHSS.

This NDI is to fund the maintenance of the ventilator cache. This equipment requires regular preventive maintenance to remain in compliance with manufacturers' recommendations and hospital regulations and policies. If not maintained annually and in compliance, these machines cannot be deployed for use. The ventilator cache is designed to meet the needs of future infectious respiratory disease outbreaks or medical surge events requiring patient ventilation. The maintenance on these devices will allow all to be available for quick deployment to any respiratory disease outbreak or other similar medical surge. The ventilator supply can be used to support healthcare facilities when their ventilators are down for maintenance. In the past, the ventilator cache has been leveraged for nationwide manufacturer's recalls of ventilators with critical malfunctions. If the ventilators are not maintained annually according to manufacturer's specifications, they will not meet hospital or CMS regulatory standards and cannot be deployed or used to support patients in regulated facilities. The replacement cost of the ventilators would be \$6,600,000 to \$7,500,000.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? The ventilator cache is designed to meet the needs of future infectious respiratory disease outbreaks or medical surge events requiring patient ventilation. Without continued funding, DHSS Office of Emergency Coordination (OEC) will not be able to maintain or sustain these assets for future outbreaks. If the ventilators are not maintained annually according to manufacturer's specifications, they will not meet hospital or CMS regulatory standards and cannot be deployed or used to support patients in regulated facilities. The original investment was supported 100% by federal disaster funds; however, those funds are no longer available and preparedness grants will not cover these costs.

### 2. CORE DESCRIPTION

Environmental public health works to reduce the risk of illness, injury, and death related to environmental causes and to ensure sanitation and safety practices which protect and promote overall wellness and increase positive health outcomes for Missourians.

**CORE DECISION ITEM**

**Dept Of Health & Senior Services**  
**Community and Public Health**

Some of the activities included within the environmental health programs include:

- Tracking and responding to environmental emergencies and emerging diseases (such as legionella), foodborne illness outbreaks, food recalls, emergency preparedness planning, incidents involving radioactive materials, transportation accidents involving food, natural disasters, and environmental and medical follow up for children with elevated blood lead levels.
- Providing training and technical assistance to local public health agencies (LPHAs) and industry: technical assistance for first responders and community partners, safe food handling best practices, sanitation and safety requirements for child care facilities, lodging establishments, legionella water management plans, childhood lead poisoning, and onsite wastewater treatment systems (OWTSs);
- Issuing permits and licenses: construction permits for onsite wastewater treatment systems (OWTSs), licensing lodging establishments, accrediting lead abatement training programs, licensing lead abatement professionals and contractors, and registering OWTS installers, soil evaluators, and inspectors;
- Inspecting regulated facilities and environmental sites: food establishments, food manufacturing/processing plants, child care facilities, summer food sites, lodging establishments, healthcare facility legionellosis, and lead abatement projects;
- Conducting assessment and surveillance of environmental public health issues (hazardous substance exposure risks, appropriate clean up level determination), collecting, integrating, and analyzing data on health effects related to environmental health hazards (algal blooms, recreational water, heat and cold related deaths, carbon monoxide deaths), providing epidemiology studies, and assuring at-risk children are tested for lead poisoning;
- Providing environmental health education to the general public: hazardous substance exposures and conditions, waste sites, sampling of residential drinking wells, radon kits, indoor air quality and other indoor environmental issues, proper food handling, proper care of OWTSs, lead-safe work practices, annual fish consumption advisory, and blood lead testing;
- Responding to citizen concerns and complaints: bedbugs, food service, lodging, child-care complaints, radon, and other exposures;
- Collaborating to leverage resources between federal, state, and local entities for efficient and effective use.

## FLEXIBILITY REQUEST FORM

<b>BUDGET UNIT NUMBER:</b> 790021B <b>BUDGET UNIT NAME:</b> Environmental Public Health <b>APPROPRIATION BILL SECTION:</b> 10.735	<b>DEPARTMENT:</b> Department of Health and Senior Services (DHSS) <b>DIVISION:</b> Division of Community and Public Health (DCPH)
<b>1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.</b>	
<b>DEPARTMENT REQUEST</b>	
Based on the recommendations of the Legislative body in previous years, DHSS has worked to create and breakdown CORES within DCPH in order to provide more transparency. The Department requests thirty percent (30%) flexibility between personal service in Sections 10.700, 10.705, 10.710, 10.725, 10.730, 10.735, 10.740, 10.745, 10.750, 10.755, 10.760, 10.765, 10.770, 10.775, 10.780, and 10.790, and thirty percent (30%) flexibility between expense and equipment in Sections 10.700, 10.705, 10.710, 10.725, 10.730, 10.735, 10.740, 10.745, 10.750, 10.755, 10.760, 10.765, 10.770, 10.775, 10.780, and 10.790 in order to ensure continuity of operations during the transition.	
<b>2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.</b>	
<b>PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED</b>	<b>CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>
\$0	AB 10.735 language allows up to thirty percent (30%) flexibility between personal service and expense and equipment. Due to variance in needs and general unpredictability, it is difficult to anticipate if flexibility will be used.
<b>BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>	
Expenditures will differ annually based on needs to cover operational expenses, address emergency and changing situations, etc. In addition, the level of Governor's reserve, restrictions, and core reductions impact how the flexibility will be used, if at all. The Department's requested flex will allow the Department to utilize available resources in the most effective manner as the need arises. Flexibility between Appropriation bill sections will allow for transparency. The Department cannot predict how much flexibility will be utilized.	
<b>3. Please explain how flexibility was used in the prior and/or current years.</b>

This NDI is requesting increased federal authority to accept additional funds from the U.S. Environmental Protection Agency (EPA) related to superfund sites. The EPA manages several large superfund sites impacted with lead contamination from historical mining and associated operations. In addition to cleanup of impacted residential yards and other impacted areas, part of the remedy for these sites includes health education and institutional controls, which is being implemented through cooperative agreements with the Department of Health and Senior Services (DHSS) and Local Public Health Agencies (LPHAs). Currently, there are four LPHAs with lead mining superfund sites receiving EPA funding in Missouri. Those are located in Jasper, Jefferson, Madison, and Washington counties. Jefferson and Washington counties are planning to complete additional education activities in fiscal year 2026 related to contaminated groundwater and private wells. In addition, Newton County is ready to begin a cooperative agreement with DHSS and the EPA. Additional authority will be needed in order for DHSS to accept and disburse funds to these counties.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

Currently, the Sr. Public Health Specialist at DHSS oversees the superfund cooperative agreements with EPA and county contracts. This includes monitoring contract deliverables outlined in workplans supplied by the LPHAs. In addition, this position attends quarterly meetings with LPHAs and EPA, attends meetings with the public and responds to questions from all entities related to this program. The program distribution request relates to what the EPA has designated for the LPHAs in order to provide additional services in their area. The amount breakdown for is as follows: \$291,868 for Jefferson County, \$68,809 for Washington County, and \$351,219 to support Newton County's program.

This NDI is requesting increased federal appropriation authority to accept the Centers for Disease Control, Environmental Health Capacity (EHC) grant funds to expand and enhance Legionella prevention, investigation, and response. DHSS staff conduct Legionella investigations at all regulated hospitals, long-term care, and lodging facilities. DHSS plans to utilize these federal funds to conduct an in-depth epidemiological investigation of Legionnaire's Disease (LD) case incidence, trends, and risk factors contributing to LD outbreaks. DHSS will use that data to create, promote, and integrate data collection, visualization and communication tools, outreach campaigns, and educational resources to improve program decision-making and efficacy, and strengthen prevention and intervention efforts, plans, and strategies across the Department.

The EHC grant expansion is \$100,000 per year for 5 years, the Department has been awarded this funding and it starts 9/1/24. Funding for travel will support data gathering, training and outreach efforts. A significant portion of the EE budget is for social media marketing to promote LD awareness and prevention. Existing DHSS personnel will support this effort without a need for additional PS dollars.

**2. THIS REQUEST CAN BE CATEGORIZED AS:**

New Legislation    Program Expansion

**3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

**NEW DECISION ITEM****RANK: OF****Budget Unit 790021B****Department of Health and Senior Services****Division of Community and Public Health****Unregulated Psychoactive****DI# NOP.79B.002****Bill Section 10.725**

This NDI requests General Revenue funds for staffing and travel to support the Department in executing the food inspection and litigation requirements associated with Executive Order 24-10, which prohibits the sale of foods containing psychoactive cannabis compounds in Missouri, unless originating from an "approved source." An increase in the availability of products containing psychoactive cannabis and the emerging concerns regarding the health effects of these substances, especially among Missouri's youth, prompted the establishment of 24-10. The number of children five and under experiencing cannabis poisoning that resulted in emergency room visits or hospitalizations has increased 600 - percent in Missouri since 2018. Additionally, America's Poison Control Center has documented that 41 - percent of exposures of Delta 8, an unregulated intoxicating hemp product, are occurring in children 12 and younger. These intoxicating compounds are currently untested in humans, unregulated, and sold to the public without restriction. The Bureau of Environmental Health Services (housed within DHSS) is the lead regulatory agency for food safety in Missouri and is charged with executing the restrictions on unregulated psychoactive cannabis products in foods outlined in this order. The order also directs the Department of Public Safety's Division of Alcohol and Tobacco Control to take certain actions that will complement, but not replace, the actions required of DHSS resulting in this request. This request represents funding necessary to hold businesses accountable to applicable regulations and subsequently reduce market availability of these unregulated products. DHSS estimates that 40,000 food establishments and smoke shops and 1,800 food manufacturers could potentially be effected by 24-10, but the majority of these facilities are at low-risk of requiring investigation.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

The requested staffing and travel funding will work to hold businesses accountable to applicable regulations and to subsequently reduce the market availability of psychoactive cannabis over time. The Department anticipates low compliance initially, but expects compliance to steadily improve as impacted businesses cease sale of this unregulated product. Based on this assumption, DHSS is requesting two Public Health Environmental Specialists and contract funds to support five contracted public health inspectors, with two of the contracted positions funded on a one-time basis to stand up the program. All seven will serve as field staff across the state and will conduct site visits to assess retailer and wholesaler inventory for unregulated psychoactive cannabis in foods. Unregulated products will be removed from commerce either through voluntary compliance or through an order of embargo. Unresolved orders of embargo will be referred to OGC for resolution in the Circuit Court. It is estimated that all seven inspection staff can conduct 2,900-3,500 site visits annually. The use of contractors for a portion of this work is preferred due to the expected decrease in market availability of this product over time; with their services not expected to be needed more than two or three years. In addition to inspection staff, DHSS is requesting funds to support two Legal Counsel positions. It is anticipated that retailers and other stakeholders may appeal the Executive Order and challenge subsequent enforcement actions. These FTE will prepare filings and represent the Department in enforcement hearings across the state. Each enforcement action may take multiple hearings; therefore, travel is requested to support all requested staff as inspections and litigation will occur across Missouri.

**5. BREAK DOWN THE REQUEST BY BUDGET ACCOUNT CLASS, JOB CLASS, AND FUND SOURCE. IDENTIFY ONE-TIME COSTS.**

### 2. CORE DESCRIPTION

The Genetics and Healthy Childhood (GHC) promotes and protects the health and safety of individuals and families based on their unique conditions, needs, and situations, utilizing multiple programs. The Department implements prevention and intervention strategies to optimize health and the environment from pre-pregnancy through adulthood. The Department accomplishes its mission in collaboration with families, health care providers, and other community, state, and national partners. Primary program activities and priorities include encouraging early entrance into prenatal care; providing education on healthy behaviors starting at preconception; helping families learn healthy parenting skills; administering the confidential, toll-free TEL-LINK Line that connects families with programs and services; providing follow-up and coordination of services to abnormal newborn blood spot screening tests and hearing loss exams for the purpose of early intervention and optimization of health outcomes; and providing case management, education, and awareness for Hepatitis B (HBV) to ensure infants born to HBV positive women receive timely and complete vaccination to prevent infection.

## FLEXIBILITY REQUEST FORM

<b>BUDGET UNIT NUMBER:</b> 790020B <b>BUDGET UNIT NAME:</b> Genetics and Newborn Health Services <b>APPROPRIATION BILL SECTION:</b> 10.740	<b>DEPARTMENT:</b> Department of Health and Senior Services (DHSS) <b>DIVISION:</b> Division of Community and Public Health (DCPH)
<b>1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.</b>	
<b>DEPARTMENT REQUEST</b>	
Based on the recommendations of the Legislative body in previous years, DHSS has worked to create and breakdown CORES within DCPH in order to provide more transparency. The Department requests thirty percent (30%) flexibility between personal service in Sections 10.700, 10.705, 10.710, 10.725, 10.730, 10.735, 10.740, 10.745, 10.750, 10.755, 10.760, 10.765, 10.770, 10.775, 10.780, and 10.790, and thirty percent (30%) flexibility between expense and equipment in Sections 10.700, 10.705, 10.710, 10.725, 10.730, 10.735, 10.740, 10.745, 10.750, 10.755, 10.760, 10.765, 10.770, 10.775, 10.780, and 10.790 in order to ensure continuity of operations during the transition.

### 2. CORE DESCRIPTION

The Health Informatics and Epidemiology unit is responsible for collecting, analyzing, and providing health information on a range of health conditions and diseases, risk factors, and preventative practices. It houses the resources necessary to operate and maintain major public health information systems; state vital statistics; community health information; and medical and public health epidemiology resources necessary to prevent, intervene, and control diseases and conditions impacting the health and wellness of Missourians.

The unit is involved in health data collection, from the enumeration of the population at risk (e.g. birth and death records) to health-care related experiences of Missourians, (e.g. managing the Patient Abstract System, health data abstracting, and healthcare infections reporting) communicable (infectious) diseases, sexually transmitted infections (STIs) and zoonotic diseases; the Missouri Cancer Registry (MCR); the Pregnancy Mortality Surveillance System (PMSS); the State Unintentional Drug Overdose Reporting System (SUDORS), and the Missouri Violent Death Reporting System (MOVDRS); the dissemination of health statistics (e.g. Missouri Public Health Information Management System (MOPHIMS)); and the distribution of downloadable public service announcements, brochures and other information; as well as statewide reportable surveillance systems (Websurv and EpiTrax); the HIV/AIDS reporting system (eHARS), and the Missouri Electronic Surveillance System for Early Notification of Community-Based Epidemics (ESSENCE). The unit manages the collection, analysis, and interpretation of data (e.g. Behavioral Risk Factor Surveillance System (BRFSS), a system for collecting state and local level data regarding health-related risk behaviors, chronic health conditions, and the use of preventative services; and the Pregnancy Risk Assessment Monitoring System (PRAMS) which collects state-specific, population-based data on maternal attitudes and experiences before, during and shortly after pregnancy.

**2. THIS REQUEST CAN BE CATEGORIZED AS:**

Program Expansion

**3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

This NDI requests additional federal appropriation authority to reclassify positions within the Bureau of Data Modernization and Interoperability (BDMI). DHSS has made significant progress implementing more efficient, electronic reporting of public health data, but this work only covers a few reportable conditions. With over 120 reportable conditions, BDMI requests additional authority to reclassify two positions capable of advancing electronic reporting to all reportable conditions in the state. The positions identified were responsible for manually entering paper lab results or disease records received into DHSS' disease surveillance systems. Repurposing these positions to work on higher impact tasks, such as programming and maintaining new electronic data feeds from health care providers to DHSS for all other reportable conditions, will allow BDMI to establish a modern, interoperable, and efficient public health reporting network across Missouri. Additionally, the amount of \$19,409 is required to support the FTE for Department operations.

DHSS is requesting the reclassification of a current Administrative Support Assistant to a Research/Data Analyst and of a Public Health Program Associate to a Senior Research/Data Analyst. The requested amount reflects the increase in federal authority needed to support the additional salary for both positions. Funding for both positions will be from federal sources and are not expected to use General Revenue. ### 2. CORE DESCRIPTION

Educating Missourians regarding Human Immunodeficiency Virus (HIV), sexually transmitted infections (STI) and hepatitis prevention, testing, and linkage to care services is essential to stop the spread of infection, prevent re-infection and prevent poor health outcomes. This program provides HIV, STI, and viral hepatitis education to the general public, those at risk for infection, and clinical providers; access to HIV, STI, and viral hepatitis prevention and testing services; increased access to HIV, STI, and viral hepatitis care and treatment; and a coordinated and efficient use of limited HIV, STI, and viral hepatitis resources to protect health and keep people safe.

## CORE DECISION ITEM

**Budget Unit 790023B**

**Bill Section 10.750**

These outcomes are achieved through the following activities:

- Providing screening and testing resources for specific, disproportionately affected populations who are underinsured or uninsured. Priority populations vary by condition and are based on epidemiological data and grant priorities.
- Delivering services in collaboration with local public health agencies, as well as a network of prevention contractors and testing program partner sites to ensure access to services throughout the state.
- Providing disease information, risk reduction counseling, and partner services (including elicitation of sex/needle-sharing partners and confidential notification of exposed partners to offer counseling, testing, and referral for treatment and care).
- Providing access to HIV medical care, medication, and related services for low-income Missourians living with HIV to improve individual health outcomes as well, as to reduce HIV transmission rates. Individuals living with HIV for whom the virus is well controlled by HIV medications pose essentially no risk of transmitting the virus through sexual contact.
- Facilitating the coordination and collaboration among statewide HIV, STI, and hepatitis service providers and stakeholders to determine program priorities and ensure efficient use of limited resources based on historical epidemiological data and emerging trends.

## FLEXIBILITY REQUEST FORM

<b>BUDGET UNIT NUMBER:</b> 790023B <b>BUDGET UNIT NAME:</b> HIV, STI, and Hepatitis Services <b>APPROPRIATION BILL SECTION:</b> 10.750	<b>DEPARTMENT:</b> Department of Health and Senior Services (DHSS) <b>DIVISION:</b> Division of Community and Public Health (DCPH)
<b>1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.</b>	
<b>DEPARTMENT REQUEST</b>	
Based on the recommendations of the Legislative body in previous years, DHSS has worked to create and breakdown CORES within DCPH in order to provide more transparency. The Department requests thirty percent (30%) flexibility between personal service in Sections 10.700, 10.705, 10.710, 10.725, 10.730, 10.735, 10.740, 10.745, 10.750, 10.755, 10.760, 10.765, 10.770, 10.775, 10.780, and 10.790, and thirty percent (30%) flexibility between expense and equipment in Sections 10.700, 10.705, 10.710, 10.725, 10.730, 10.735, 10.740, 10.745, 10.750, 10.755, 10.760, 10.765, 10.770, 10.775, 10.780, and 10.790 in order to ensure continuity of operations during the transition.	
<b>2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.</b>	
<b>PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED</b>	<b>CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>
\$0	AB 10.750 language allows up to thirty percent (30%) flexibility between personal service and expense and equipment. Due to variance in needs and general unpredictability, it is difficult to anticipate if flexibility will be used.
<b>BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>	
Expenditures will differ annually based on needs to cover operational expenses, address emergency and changing situations, etc. In addition, the level of Governor's reserve, restrictions, and core reductions impact how the flexibility will be used, if at all. The Department's requested flex will allow the Department to utilize available resources in the most effective manner as the need arises. Flexibility between Appropriation bill sections will allow for transparency. The Department cannot predict how much flexibility will be utilized.	
<b>3. Please explain how flexibility was used in the prior and/or current years.</b>	
<b>PRIOR YEAR EXPLAIN ACTUAL USE</b>	<b>CURRENT YEAR EXPLAIN PLANNED USE</b>

### 2. CORE DESCRIPTION

The Department of Health and Senior Services (DHSS), Center for Local Public Health administers participation agreements with 115 local health agencies to ensure public health services are available in every county in Missouri. The presence of public health services at the local level is essential for protecting health and keeping people safe. The local health agencies are a vital partner in providing statewide services including, but not limited to, communicable disease surveillance and outbreak response, environmental surveillance (retail food, lodging, on-site sewage, childcare sanitation), immunizations, infectious disease testing and referral to care, chronic disease prevention and control education, public health emergency preparedness and response, and vital record issuance.

## CORE DECISION ITEM

**Dept Of Health & Senior Services**  
**Community and Public Health**  
**CORE - Local Public Health Agency Support**

**Budget Unit 790014B**

**Bill Section 10.755**

The funding administered allows local health agencies to utilize funding as needed to deliver public health services in cooperation with DHSS. While the Department is available for technical assistance and may lead activities in some program areas, public health services statewide would not be available without the existence of local public health agencies. State funding constitutes a different percentage of each local health department's total budget, but overall, public health in Missouri remains underfunded and state funding is necessary to maintain local delivery of these services. The federal funding (49 percent of the total in Fiscal Year 2024) distributed through these core participation agreements is the result of federal match received on expenditures reported by locals for specific unreimbursed services they have delivered to children age zero through 19 (Children's Health Insurance Program Health Services Initiative (CHIP H.S.I.)). DHSS staff provide technical assistance regarding CHIP H.S.I. claiming, and collect and aggregate the expenditure data for all 115 agencies for quarterly submission to the Center for Medicare and Medicaid Services (through collaboration with Department of Social Services) in order to receive this match. In addition to the core funding, an additional \$3.8 million in general revenue, referred to as incentive funding, is available in total to the 115 local public health agencies. The incentive funding is only distributed to an individual agency if the agency is able to demonstrate achievement of specific quality initiatives.

Besides funding support, the Center for Local Public Health staff provide a collaborative approach to quality services by holding orientations and trainings for new administrators, boards of health and county commissioners, connecting locals with staff throughout DHSS for specific programmatic technical assistance, and connecting locals with resources and programs through conference calls and in-person regional meetings offered throughout the year. The Department also assists in sponsoring a state-wide annual conference for public health professionals.

## FLEXIBILITY REQUEST FORM

<b>BUDGET UNIT NUMBER:</b> 790014B <b>BUDGET UNIT NAME:</b> Local Public Health Agency Support <b>APPROPRIATION BILL SECTION:</b> 10.755	<b>DEPARTMENT:</b> Department of Health and Senior Services (DHSS) <b>DIVISION:</b> Division of Community and Public Health (DCPH)
<b>1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.</b>	
<b>DEPARTMENT REQUEST</b>	
Based on the recommendations of the Legislative body in previous years, DHSS has worked to create and breakdown CORES within DCPH in order to provide more transparency. The Department requests thirty percent (30%) flexibility between personal service in Sections 10.700, 10.705, 10.710, 10.725, 10.730, 10.735, 10.740, 10.745, 10.750, 10.755, 10.760, 10.765, 10.770, 10.775, 10.780, and 10.790, and thirty percent (30%) flexibility between expense and equipment in Sections 10.700, 10.705, 10.710, 10.725, 10.730, 10.735, 10.740, 10.745, 10.750, 10.755, 10.760, 10.765, 10.770, 10.775, 10.780, and 10.790 in order to ensure continuity of operations during the transition.	
<b>2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.</b>	
<b>PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED</b>	<b>CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>
\$0	AB 10.755 language allows up to thirty percent (30%) flexibility between personal service and expense and equipment. Due to variance in needs and general unpredictability, it is difficult to anticipate if flexibility will be used.
<b>BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>	
Expenditures will differ annually based on needs to cover operational expenses, address emergency and changing situations, etc. In addition, the level of Governor's reserve, restrictions, and core reductions impact how the flexibility will be used, if at all. The Department's requested flex will allow the Department to utilize available resources in the most effective manner as the need arises. Flexibility between Appropriation bill sections will allow for transparency. The Department cannot predict how much flexibility will be utilized.	
<b>3. Please explain how flexibility was used in the prior and/or current years.</b>	
<b>PRIOR YEAR EXPLAIN ACTUAL USE</b>	<b>CURRENT YEAR EXPLAIN PLANNED USE</b>
Not applicable.	Not applicable.

### 2. CORE DESCRIPTION

The nutrition initiatives programs implement services and activities that increase access to healthy, nutritious food, which in turn increases positive health outcomes for eligible Missourians and reduces preventable nutrition-related illnesses and deaths.

## CORE DECISION ITEM

**Dept Of Health & Senior Services**  
**Community and Public Health**  
**CORE - Nutrition Services**

**Budget Unit 790035B**

**Bill Section 10.760**

The nutrition initiatives programs improve nutritional health through a variety of services. Services provided include: health screening and risk assessment; nutrition counseling; breastfeeding promotion and support; referrals to health and social services; benefits to purchase specific food items needed for good health; reimbursement for meals which meet federally prescribed guidelines; and distribution of commodity food packages.

Specific programs include:

- WIC, the Special Supplemental Nutrition Program for Women, Infants, and Children, which provides supplemental nutritious foods, nutrition education, breastfeeding promotion and support, and referrals to health and other social services for low-income pregnant, breastfeeding, and postpartum women, and to infants and children up to age five who are found to be at nutritional risk;
- The Child and Adult Care Food Program (CACFP), which improves the nutritional health of children and adults in child care centers, family child care homes, adult day care facilities, emergency/homeless shelters, and afterschool programs;
- The Summer Food Service Program (SFSP), which assures that low-income children continue to receive nutritious meals when school is not in session and during times of emergency such as the COVID-19 pandemic when all schools were closed or operating virtually; and
- The Commodity Supplemental Food Program (CSFP), which improves the nutrient intake needed for adults 60 years of age and older by providing supplemental commodity food which contains needed sources of iron, calcium, protein, and vitamins A and C.

## FLEXIBILITY REQUEST FORM

<b>BUDGET UNIT NUMBER:</b> 790035B <b>BUDGET UNIT NAME:</b> Nutrition Services <b>APPROPRIATION BILL SECTION:</b> 10.760	<b>DEPARTMENT:</b> Department of Health and Senior Services (DHSS) <b>DIVISION:</b> Division of Community and Public Health (DCPH)
<b>1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.</b>	
<b>DEPARTMENT REQUEST</b>	
Based on the recommendations of the Legislative body in previous years, DHSS has worked to create and breakdown CORES within DCPH in order to provide more transparency. The Department requests thirty percent (30%) flexibility between personal service in Sections 10.700, 10.705, 10.710, 10.725, 10.730, 10.735, 10.740, 10.745, 10.750, 10.755, 10.760, 10.765, 10.770, 10.775, 10.780, and 10.790, and thirty percent (30%) flexibility between expense and equipment in Sections 10.700, 10.705, 10.710, 10.725, 10.730, 10.735, 10.740, 10.745, 10.750, 10.755, 10.760, 10.765, 10.770, 10.775, 10.780, and 10.790 in order to ensure continuity of operations during the transition.	
<b>2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.</b>	
<b>PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED</b>	<b>CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>
\$0	AB 10.760 language allows up to thirty percent (30%) flexibility between personal service and expense and equipment. Due to variance in needs and general unpredictability, it is difficult to anticipate if flexibility will be used.
<b>BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>	
Expenditures will differ annually based on needs to cover operational expenses, address emergency and changing situations, etc. In addition, the level of Governor's reserve, restrictions, and core reductions impact how the flexibility will be used, if at all. The Department's requested flex will allow the Department to utilize available resources in the most effective manner as the need arises. Flexibility between Appropriation bill sections will allow for transparency. The Department cannot predict how much flexibility will be utilized.	
<b>3. Please explain how flexibility was used in the prior and/or current years.</b>

The Department of Health and Senior Services is requesting additional federal appropriation authority for staffing to ensure program continuity and compliance with the new federal regulations of the United States Department of Agriculture (USDA) funded Summer Food Service Program (SFSP) and Child and Adult Care Food Program (CACFP). The USDA modified its regulations to increase the frequency of monitoring reviews and expand the scope of what is reviewed. Reviews were completed every three years and now will be required every other year for both food service programs. These changes have significantly increased the amount of staff time needed to prepare, conduct the review onsite, and complete the monitoring process. In addition to this increase, USDA also issued changes to the SFSP program to begin allowing children to be served off-site (noncongregate), which created unprecedented growth in sites for the SFSP program. In order to comply with federal regulations and meet the demand of the programs, DHSS will need to increase its workforce by two additional staff. Prior to changes in the program and federal regulation, the department was already at maximum capacity of staff being able to conduct monitoring reviews, provide training and technical assistance to sponsor sites, as well as oversight and coordination of these activities.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

The request below is based on the current salary of other positions within the same job classification employed with DHSS. The Nutrition Specialist will perform monitoring reviews, trainings, and provide technical assistance to sponsors and participating institutions. The Senior Nutritionist will provide supervision and coordination of the Nutrition Specialist in addition to responding to data requests from the USDA. These staff are located in the field, so additional travel is requested for each staff to travel to sites for monitoring and reviews.

### 2. CORE DESCRIPTION

The Office of Rural Health and Primary Care (ORHPC), comprised of the State Office of Rural Health (SORH) and the Primary Care Office (PCO), enhances equitable access to health care services to rural and underserved populations and communities to improve the health status of these Missouri residents.

## CORE DECISION ITEM

**Community and Public Health**  
**CORE - Rural Health and Primary Care Initiatives**

**Budget Unit 790115B**

**Bill Section 10.765**

ORHPC does this by working closely with local health advocates, associations, universities, hospitals and clinics, and providers on a variety of community development activities and providing resources and leadership for health care access initiatives. SORH provides leadership in the development and coordination of rural health initiatives to support, strengthen, and improve rural health care. Activities include acting as a central location for the collection and dissemination of information related to rural health care issues, research findings related to rural health, and innovative health care delivery approaches; monitoring, coordinating, and facilitating rural health efforts with a focus on avoiding duplication and inefficiencies; and providing technical assistance to rural health stakeholders to support their efforts. Additionally, SORH seeks to promote and develop diverse and innovative health care service models, educate and recommend appropriate public policies to ensure the viability of rural health care delivery. Programs and contracts include providing rural health clinics with trainings and webinars to become Patient Centered Medical Home accredited and the Rural Track Pipeline Program, which establishes rural training sites, identifies and develops community based faculty preceptors, recruits rural students into health care professions, and collaborates with other state and national leaders to promote the advancement of rural health care. PCO works to improve primary care service delivery, conduct a health provider needs assessment, manage health professional shortage designation, and address workforce availability to meet the needs of underserved populations. The PCO partners with federal and state programs, communities, private entities, health care facilities, and providers to assess, develop, and expand comprehensive, community-based primary health care services. The PCO manages multiple programs, including Missouri's J-1 Visa, National Interest Waiver (NIW), and health professional loan repayment programs; helping to recruit and retain health professionals in underserved communities; and collaborating and providing technical assistance to support improved access to primary care services. PCO also administers the Rural Physician Grant Program awarding funding to primary care physicians to relocate to HPSA in exchange for a five-year service obligation and the Missouri Graduate Medical Education Grant Program established in FY 2024 to increase primary care residency slots available in Missouri.

## FLEXIBILITY REQUEST FORM

<b>BUDGET UNIT NUMBER:</b> 790115B <b>BUDGET UNIT NAME:</b> Rural Health and Primary Care Initiatives <b>APPROPRIATION BILL SECTION:</b> 10.765	<b>DEPARTMENT:</b> Department of Health and Senior Services (DHSS) <b>DIVISION:</b> Division of Community and Public Health (DCPH)
<b>1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.</b>	
<b>DEPARTMENT REQUEST</b>	
Based on the recommendations of the Legislative body in previous years, DHSS has worked to create and breakdown CORES within DCPH in order to provide more transparency. The Department requests thirty percent (30%) flexibility between personal service in Sections 10.700, 10.705, 10.710, 10.725, 10.730, 10.735, 10.740, 10.745, 10.750, 10.755, 10.760, 10.765, 10.770, 10.775, 10.780, and 10.790, and thirty percent (30%) flexibility between expense and equipment in Sections 10.700, 10.705, 10.710, 10.725, 10.730, 10.735, 10.740, 10.745, 10.750, 10.755, 10.760, 10.765, 10.770, 10.775, 10.780, and 10.790 in order to ensure continuity of operations during the transition.	
<b>2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.</b>	
<b>PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED</b>	<b>CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>
\$0	AB 10.765 language allows up to thirty percent (30%) flexibility between personal service and expense and equipment. Due to variance in needs and general unpredictability, it is difficult to anticipate if flexibility will be used.
<b>BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>	
Expenditures will differ annually based on needs to cover operational expenses, address emergency and changing situations, etc. In addition, the level of Governor's reserve, restrictions, and core reductions impact how the flexibility will be used, if at all. The Department's requested flex will allow the Department to utilize available resources in the most effective manner as the need arises. Flexibility between Appropriation bill sections will allow for transparency. The Department cannot predict how much flexibility will be utilized.	
<b>3. Please explain how flexibility was used in the prior and/or current years.</b>	
<b>PRIOR YEAR EXPLAIN ACTUAL USE</b>	<b>CURRENT YEAR EXPLAIN PLANNED USE</b>

## 3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

This NDI is requesting transfer authority to transfer funds from the Professional and Practical Nursing Student Loan and Nurse Loan Repayment Fund (herby referred to as "the fund") to the Missouri Board of Nursing. During the 2023 legislative session statute changes allowed the Department of Health and Senior Services (DHSS) to restructure the Primary Care Resource Initiative of Missouri (PRIMO) to expand eligibility for loan repayment to other health professionals and better address the needs in Health Professional Shortage Areas (HPSAs) through a new program called Health Professional Loan Repayment Program (HPLRP). Previous to this change, the program issued loan repayments from the fund, comprised of nurse licensing fees. HPLRP is not supported from this fund; however, 100 individuals are still subject to work requirements for loans received in the past and 106 individuals are currently subject to collections for loan repayments issued from this fund.

DHSS collects, on average, \$68,000 per year from loan defaults, so DHSS is requesting ongoing appropriation authority to transfer funds received to the Missouri Board of Nursing for use in their nurse professional development activities.

### 2. CORE DESCRIPTION

Oral health services and initiatives are in place to improve oral health outcomes for Missourians. The Office of Dental Health (ODH) provides education to the general public, dental, and medical providers, public health officials, and decision-makers on a broad range of oral health topics. Topics include strategies to prevent dental problems, the consequences of poor oral health for an individual's overall health, and community water fluoridation.

**Community and Public Health**  
**CORE - Oral Health Services and Initiatives**

**Budget Unit 790116B**

**Bill Section 10.770**

ODH activities include:

- Operating the Preventive Services Program (PSP) and the Dental Sealant Program to deliver education and preventive measures to Missouri children;
- Providing training and support for communities which choose to fluoridate their water or start fluoridation in their communities;
- Working with partners to advocate for increased access to dental care to prevent costly trips to the hospital and expensive dental restorations;
- Coordinating with schools to recruit volunteer dentists, hygienists, and dental students to screen children during the PSP events. Children participating in PSP are screened to assess their dental health to see if treatment is necessary, and to evaluate the dental health of Missouri children. Volunteers apply the fluoride varnish as a part of the PSP event;
- Coordinating with Truman Medical Center for the Elks Mobile Dental Program and the Dental Lifeline Network for the Donated Dental Services program. These programs provide dental care to people who may not have access to dental care who include but are not limited to developmentally or intellectually disabled individuals, veterans and those who are medically fragile;
- Operating the Improving Oral Health Outcomes, which hopes to increase Missouri's number of children with dental sealants, a known deterrent to dental decay, and to increase the number of people being served by optimally fluoridated community water systems, one of the most cost-effective ways to prevent tooth decay;
- Operating the Support Oral Health Workforce Activities, aiming to bring teledentistry services to people with limited access to dental care, and working with the Local Public Health Agencies to provide fluoride varnish to children who may not have access to dental care;
- Coordinating efforts to bring the Community Water Fluoridation (CWF) Program to Missouri communities by promoting this evidence based public health measure and coordinating the repair and replacement of CWF equipment; and
- Coordinating the school sealant program by working with dental schools and Local Public Health Agencies to go into their local schools and apply dental sealants to the children who do not have dental sealants.

## FLEXIBILITY REQUEST FORM

<b>BUDGET UNIT NUMBER:</b> 790116B	<b>DEPARTMENT:</b> Department of Health and Senior Services (DHSS)
<b>BUDGET UNIT NAME:</b> Oral Health Services and Initiatives	
<b>APPROPRIATION BILL SECTION:</b> 10.770	<b>DIVISION:</b> Division of Community and Public Health (DCPH)

**1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.**

### DEPARTMENT REQUEST

Based on the recommendations of the Legislative body in previous years, DHSS has worked to create and breakdown CORES within DCPH in order to provide more transparency. The Department requests thirty percent (30%) flexibility between personal service in Sections 10.700, 10.705, 10.710, 10.725, 10.730, 10.735, 10.740, 10.745, 10.750, 10.755, 10.760, 10.765, 10.770, 10.775, 10.780, and 10.790, and thirty percent (30%) flexibility between expense and equipment in Sections 10.700, 10.705, 10.710, 10.725, 10.730, 10.735, 10.740, 10.745, 10.750, 10.755, 10.760, 10.765, 10.770, 10.775, 10.780, and 10.790 in order to ensure continuity of operations during the transition.

**2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.**

<b>PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED</b>	<b>CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>	<b>BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>
\$0	AB 10.770 language allows up to thirty percent (30%) flexibility between personal service and expense and equipment. Due to variance in needs and general unpredictability, it is difficult to anticipate if flexibility will be used.	Expenditures will differ annually based on needs to cover operational expenses, address emergency and changing situations, etc. In addition, the level of Governor's reserve, restrictions, and core reductions impact how the flexibility will be used, if at all. The Department's requested flex will allow the Department to utilize available resources in the most effective manner as the need arises. Flexibility between Appropriation bill sections will allow for transparency. The Department cannot predict how much flexibility will be utilized.

**3. Please explain how flexibility was used in the prior and/or current years.**

### 2. CORE DESCRIPTION

Minority Health Initiatives (MHI) work to develop public health interventions and strategies to decrease the rate of health disparities in underserved/vulnerable populations that are geographically, culturally, and economically isolated.

This is accomplished through providing technical support for the design of culturally appropriate health messages and educational outreach; convening minority-specific community engagement opportunities, and assisting state and local partners with program implementation of activities for "hard-to-reach" minority and underserved populations. The MHI assists community minority health organizations throughout Missouri by identifying available funding for health programs through public and private grants and promoting coalition and community development resources. MHI also advises the Missouri Department of Health and Senior Services (DHSS) director on topics related to promoting fair and reasonable access to health care addressing health disparities impacting all Missourians with an emphasis on minority and underserved geographic areas; provides support to the Health Equity Stakeholder Committee; support for the statewide health assessment and statewide health improvement plan addressing social determinates of health, promotes the development of community coalitions and resources across Missouri; provides technical assistance related to person centered services, health literacy, and social determinates of health; coordinates with internal and external partners on strategies to promote fair and reasonable access to health care to reduce health disparities impacting Missourians, coordinates the development of culturally sensitive health educational programs designed to promote health literacy and reduce the incidence of disease among minority populations across Missouri; and addresses new issues impacting the health of minorities and underserved areas of Missouri.

### 2. CORE DESCRIPTION

Women's health and wellness initiatives serve to protect and improve the health of women and families by coordinating programs and activities across the state. The Department of Health and Senior Services (DHSS) directs programs focused on improving health and safety outcomes for women. The initiatives include maternal mortality review and prevention, maternal morbidity prevention, sexual violence prevention and response, family planning services, and health education and awareness.

Some of the specific programs and activities include:

- The Extended Women's Health Services Program covers family planning-related services, pregnancy testing, sexually transmitted disease testing and treatment (including pap tests and pelvic exams), and follow-up services covered by MO HealthNet for uninsured women who are 18-55 years of age that meet income guidelines.
- The Sexual Violence Prevention and Response Program focuses on preventing sexual violence perpetration and providing telehealth support to hospitals for forensic exams. Preventing violence is accomplished by using a public health approach to decrease sexual violence risk factors and increase sexual violence protective factors. Contractors implement and evaluate evidence-based sexual violence prevention strategies that include bystander intervention, changing the built environment, and building community connectedness. Additionally, work is focused on strengthening economic supports for women and families and establishing and revising sexual harassment and violence prevention policies and procedures in the workplace. The response program is a statewide network available to hospitals that do not currently have sexual assault nurse examiner coverage. Telehealth services are available to providers at these hospitals to assist their medical providers with conducting a forensic exam.
- The Pregnancy Associated Mortality Review (PAMR) Program abstracts data on all women who die during pregnancy and up to one year following the end of the pregnancy. The purpose of the PAMR is to examine the medical and non-medical circumstances of these deaths and to identify gaps in services and systems that should be improved to prevent future deaths. The PAMR can also identify strengths in the system of care that should be supported or expanded to improve maternal outcomes.
- Maternal Mortality Prevention Plan: These efforts include developing maternal quality control protocols to standardize practices at all birth facilities across the state; establishing a perinatal health access collaborative to allow general practitioners in underserved areas to consult with medical specialists elsewhere in the state; standardizing maternal care provider trainings, including screening and treating cardiovascular disorders associated with pregnancy and the treatment of mental health conditions or substance use disorders during and after pregnancy; developing and implementing best practices for postpartum plans of care; and improving maternal health data collection and reporting.
- This funding also includes some initiatives of the Title V Maternal and Child Health (MCH) Services Block Grant which assures a maternal-child public health system with a variety of services, programs, and initiatives that addresses the needs of Missouri's mothers, infants, children, adolescents, and families, including children and youth with special health needs (CYSHCN).

## FLEXIBILITY REQUEST FORM

<b>BUDGET UNIT NUMBER:</b> 790117B <b>BUDGET UNIT NAME:</b> Women's Health and Wellness <b>APPROPRIATION BILL SECTION:</b> 10.780	<b>DEPARTMENT:</b> Department of Health and Senior Services (DHSS) <b>DIVISION:</b> Division of Community and Public Health (DCPH)
<b>1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.</b>	
<b>DEPARTMENT REQUEST</b>	
Based on the recommendations of the Legislative body in previous years, DHSS has worked to create and breakdown CORES within DCPH in order to provide more transparency. The Department requests thirty percent (30%) flexibility between personal service in Sections 10.700, 10.705, 10.710, 10.725, 10.730, 10.735, 10.740, 10.745, 10.750, 10.755, 10.760, 10.765, 10.770, 10.775, 10.780, and 10.790, and thirty percent (30%) flexibility between expense and equipment in Sections 10.700, 10.705, 10.710, 10.725, 10.730, 10.735, 10.740, 10.745, 10.750, 10.755, 10.760, 10.765, 10.770, 10.775, 10.780, and 10.790 in order to ensure continuity of operations during the transition.	
<b>2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.</b>	
<b>PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED</b>	<b>CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>
\$0	AB 10.780 language allows up to thirty percent (30%) flexibility between personal service and expense and equipment. Due to variance in needs and general unpredictability, it is difficult to anticipate if flexibility will be used.
<b>BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>	
Expenditures will differ annually based on needs to cover operational expenses, address emergency and changing situations, etc. In addition, the level of Governor's reserve, restrictions, and core reductions impact how the flexibility will be used, if at all. The Department's requested flex will allow the Department to utilize available resources in the most effective manner as the need arises. Flexibility between Appropriation bill sections will allow for transparency. The Department cannot predict how much flexibility will be utilized.	
<b>3. Please explain how flexibility was used in the prior and/or current years.</b>	
<b>PRIOR YEAR EXPLAIN ACTUAL USE</b>	<b>CURRENT YEAR EXPLAIN PLANNED USE</b>

This NDI requests funds to support the ongoing operations of the Extended Women's Health program. During the Public Health Emergency (PHE), a majority of this population remained in the Pregnant woman/Postpartum Medicaid eligibility or were transitioned into the Adult Expansion Group population. Federal requirements during the PHE kept those populations from dropping off Medicaid eligibility, resulting in decreased expenditures through this program. As a result, appropriation for this program was decreased from \$6,289,091 in FY22 to \$1,809,091 in FY25. Now that the PHE has ended, individuals are moving back into this program, increasing projected expenditures. This program provides funding for family planning and family planning-related services, pap tests and pelvic exams, pregnancy testing, sexually transmitted disease testing/treatment, and follow-up services for eligible women. This program also provides education and outreach to encourage eligible women to access the family planning services and family planning-related services offered. Eligible women include those with a family Modified Adjusted Gross Income for the household size that does not exceed 201 percent of the Federal Poverty Level, and uninsured women losing MO HealthNet coverage at the conclusion of one year postpartum for one additional year. Program services are intended to reduce the number of unintended pregnancies for eligible women and thereby reduce Medicaid expenditures. Unintended pregnancies, which account for nearly half (45 percent) of all pregnancies in the United States, are also associated with risks of other health issues such as low birth weight and maternal depression. The services provided by this program also assist women in preventing the spread of sexually transmitted infections.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

The amount requested reflects the anticipated shortage in state funds the department needs to facilitate this program in state fiscal year 2026 based on actual and projected expenditures.

**2. THIS REQUEST CAN BE CATEGORIZED AS:**

Program Expansion

**3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

This NDI is requesting to establish a fund and spending authority from that fund as a way to collect and expend monies from training fees, as allowed by the Justice for Survivors Act (192.2520, RSMo.). During the 2024 Legislative Session, the Department of Health and Senior Services (DHSS) received federal authority to create and implement in-classroom and clinical setting training courses for forensic nurses. Through these federal funds nurses in Missouri will be provided the training free of charge, but DHSS seeks to offer this training to other medical professionals (OBGYNs, Physician Assistants, etc.) and non-Missouri residents for a fee. The collected funds will then be used to support, enhance, and expand training for forensic nurses. This is essential for continued support for the forensic nurse workforce in Missouri as it will reduce reliance on other funding sources to ensure trained professionals will be more readily available to provide forensic exams.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

The requested authority is needed in order to accept fees and then expend them as outlined in question three. Without the requested authority, the Department will be unable to collect or utilize these fees. The amount requested is an estimation of the annual cost to provide ongoing clinical training.

### 2. CORE DESCRIPTION

Fetal Infant Mortality Review (FIMR) is an evidence-based process to identify and analyze factors that contribute to fetal and infant death.

The National FIMR model utilizes a regional approach due to the large case load of fetal and infant deaths, and contributing factors for fetal and infant deaths are often related to local environmental causes that local communities will understand better than the state program. Based on the National FIMR model, 10 Missouri FIMR regions were formed based on fetal and infant mortality case loads and geographic areas of interest. Missouri's FIMR Program is a network of ten regional FIMR teams, comprising diverse, multidisciplinary professionals to examine confidential, de-identified individual cases of fetal and infant deaths from 24 weeks gestation through the 12 months after birth. The review process operates as a two-tiered system. A Community Review Team (CRT) conducts the case reviews and a separate team, a Community Action Team, is charged with taking recommendations from the CRT and implementing them into action within the communities.

### 2. CORE DESCRIPTION

The Department is the repository of vital records for the State of Missouri and provides citizens and federal, state, and local agencies the ability to register, amend, and obtain vital records. Vital record documents also provide important data and statistical information critical to identifying and quantifying health related issues and measuring progress toward quality improvement and public health goals.

Activities include:

- Maintaining the central registry of births, deaths, reports of fetal deaths, reports of marriages and divorces, and the Putative Father Registry.
- Correcting or amending vital records as authorized by state law, to include court orders or as a result of adoption or legitimation.
- Issuing certified and non-certified copies of births, deaths, reports of fetal deaths, original pre-adoptive records, and statements relating to marriages and divorces.
- Conducting workshops, trainings, and providing technical assistance to ensure the complete, accurate, and timely registration of vital records by a wide variety of professionals who are responsible for components of vital record documentation and submission.

The Department is a part of the national group of jurisdictions that share vital records information with the National Vital Statistics System (NVSS) at the Centers for Disease Control and Prevention (CDC). The compiled national natality, mortality, and fetal death statistics inform a variety of medical and health-related research efforts. Local and state public health agencies use information from the death record to assess community health status and for disease surveillance (e.g. drug overdose deaths, influenza, and other infectious diseases).

## FLEXIBILITY REQUEST FORM

<b>BUDGET UNIT NUMBER:</b> 790058B <b>BUDGET UNIT NAME:</b> Vital Records Registration and Issuance <b>APPROPRIATION BILL SECTION:</b> 10.790	<b>DEPARTMENT:</b> Department of Health and Senior Services (DHSS) <b>DIVISION:</b> Division of Community and Public Health (DCPH)
<b>1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.</b>	
<b>DEPARTMENT REQUEST</b>	
Based on the recommendations of the Legislative body in previous years, DHSS has worked to create and breakdown CORES within DCPH in order to provide more transparency. The Department requests thirty percent (30%) flexibility between personal service in Sections 10.700, 10.705, 10.710, 10.725, 10.730, 10.735, 10.740, 10.745, 10.750, 10.755, 10.760, 10.765, 10.770, 10.775, 10.780, and 10.790, and thirty percent (30%) flexibility between expense and equipment in Sections 10.700, 10.705, 10.710, 10.725, 10.730, 10.735, 10.740, 10.745, 10.750, 10.755, 10.760, 10.765, 10.770, 10.775, 10.780, and 10.790 in order to ensure continuity of operations during the transition.	
<b>2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.</b>	
<b>PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED</b>	<b>CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>
\$0	AB 10.790 language allows up to thirty percent (30%) flexibility between personal service and expense and equipment. Due to variance in needs and general unpredictability, it is difficult to anticipate if flexibility will be used.
<b>BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>	
Expenditures will differ annually based on needs to cover operational expenses, address emergency and changing situations, etc. In addition, the level of Governor's reserve, restrictions, and core reductions impact how the flexibility will be used, if at all. The Department's requested flex will allow the Department to utilize available resources in the most effective manner as the need arises. Flexibility between Appropriation bill sections will allow for transparency. The Department cannot predict how much flexibility will be utilized.	
<b>3. Please explain how flexibility was used in the prior and/or current years.</b>	
<b>PRIOR YEAR EXPLAIN ACTUAL USE</b>	<b>CURRENT YEAR EXPLAIN PLANNED USE</b>
Not applicable.	Not applicable.

### 2. CORE DESCRIPTION

The Department of Health and Senior Services (DHSS) initiated its response to SARS-CoV-2 (COVID-19) in January 2020. Since the onset of the pandemic, DHSS partnered with other governmental agencies, numerous non-governmental organizations, and healthcare systems, with the Department taking action at multiple levels, from assistance in the field to overall administration, to assist with public health response and mitigation efforts.

American Rescue Plan Act (ARPA) and Coronavirus State and Local Fiscal Recovery Funds (COVID) funds have strengthened the state's public health infrastructure through enhancements to public health data systems and supporting public health capacity by bolstering the workforce and its foundational capabilities. Missouri's utilization of these federal funds has and will continue to fulfill the purposes of the American Rescue Plan Act, addresses the economic and public health impacts of the pandemic, restores public services, and builds the long-term public health infrastructure necessary to meet future public health crises.

## FLEXIBILITY REQUEST FORM

<b>BUDGET UNIT NUMBER:</b> 790118B <b>BUDGET UNIT NAME:</b> COVID Response and ARPA Initiatives <b>APPROPRIATION BILL SECTION:</b> 10.795	<b>DEPARTMENT:</b> Department of Health and Senior Services (DHSS) <b>DIVISION:</b> Division of Community and Public Health (DCPH)
<b>1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.</b>	
<b>DEPARTMENT REQUEST</b>	
The Department requests ten percent (10%) flexibility between American Rescue Plan Act of 2021 grant programs in this section.	
<b>2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.</b>	
<b>PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED</b>	<b>CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>
\$0	AB 10.795 language allows up to ten percent (10%) flexibility between American Rescue Plan Act of 2021 grant programs in this section. Due to variance in needs and general unpredictability, it is difficult to anticipate if flexibility will be used.
<b>BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>	
Expenditures will differ annually based on needs to cover operational expenses, address emergency and changing situations, etc. In addition, the level of Governor's reserve, restrictions, and core reductions impact how the flexibility will be used, if at all. The Department's requested flex will allow the Department to utilize available resources in the most effective manner as the need arises. Flexibility between Appropriation bill sections will allow for transparency. The Department cannot predict how much flexibility will be utilized.	
<b>3. Please explain how flexibility was used in the prior and/or current years.</b>	
<b>PRIOR YEAR EXPLAIN ACTUAL USE</b>	<b>CURRENT YEAR EXPLAIN PLANNED USE</b>

The Department of Health and Senior Services (DHSS) has been awarded federal grants from the Centers for Disease Control (CDC) to support critical public health initiatives. The National Wastewater Surveillance Systems grant aims to track the presence of SARS-CoV-2 in wastewater samples nationwide; the Advanced Molecular Detection (AMD) grant works to increase SARS-CoV-2 sequencing and build AMD capacity in local health departments; and the Strengthen HAI/AR Program (SHARP) supports a broad range of healthcare infection prevention and control (IPC) activities and epidemiologic surveillance related activities to detect, monitor, mitigate, and prevent the spread of SARS-CoV-2/COVID-19 in healthcare settings. However, the funding source for these grants has shifted from COVID-19 funds to the American Rescue Plan Act (ARPA). As a result, the department is seeking additional ARPA personal service (PS) appropriation to utilize these federal funds and continue the important work of these programs. Without the necessary appropriations, the Department may be unable to fully leverage the grant funding, potentially leading to the cessation of these critical public health activities.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

The Department is requesting ARPA appropriations for the following critical public health initiatives: Additional PS authority for the National Wastewater Surveillance Systems Grant: This grant is designed to coordinate and build the nation's capacity to track the presence of SARS-CoV-2, the virus that causes COVID-19, in wastewater samples collected across the country. Additional PS authority for the Advanced Molecular Detection (AMD) grant: This grant seeks to increase the amount of SARS-CoV-2 sequencing being performed in the United States and to facilitate the use of microbial genomics and bioinformatics data in the response to SARS-CoV-2 and other emerging pathogens. It will also further the development of AMD capacity in local health departments. Additional PS authority for the Strengthen HAI/AR Program (SHARP): This program provides support for a broad range of healthcare infection prevention and control (IPC) activities and epidemiologic surveillance related activities. These funds will be used to detect, monitor, mitigate, and prevent the spread of SARS-CoV-2/COVID-19 in healthcare settings. The funds may also address other conditions in healthcare settings, such as healthcare associated infections (HAIs) and antimicrobial resistance (AR), which rely upon the same fundamental IPC and epidemiologic surveillance approaches.

### 2. CORE DESCRIPTION

The State Public Health Laboratory (SPHL) is vitally important to public health. It provides a broad range of disease control and surveillance, preventive healthcare, emergency preparedness, all-hazards laboratory response, environmental monitoring, and laboratory improvement services. The SPHL operates specialty units in Jefferson City and Poplar Bluff that provide services to physicians, veterinarians, law enforcement officials, local and district public health personnel, hospitals, and private laboratories. The SPHL conducts testing in the fields of immunology, virology, microbiology, tuberculosis, chemistry, environmental bacteriology, advanced molecular detection, and newborn screening that allow medical practitioners to identify harmful conditions and provide appropriate treatment.

The SPHL also conducts analyses of water and food to assure it is safe to use. The SPHL is the state reference laboratory, serving the Department, local health agencies, and medical professionals and institutions throughout Missouri by confirming results or completing organism identification. The SPHL is the leader in the state for acquiring and implementing advanced technologies and methodologies to detect newly emerging or re-emerging diseases of public health consequence. Examples include: Mpox, Ebola, foodborne diseases, rabies, pandemic strains of influenza, antibiotic-resistant bacteria, mumps, sexually transmitted infections (syphilis, HIV, chlamydia, gonorrhea), whole genome sequencing of bacterial and viral isolates, and drug-resistant tuberculosis. Much of this testing occurs in specially designed laboratories (Bio-Safety Level 3) and requires extensive technical and safety training. Serving as the primary state response laboratory for biological and chemical terrorism events, the SPHL also conducts program evaluations for municipal, hospital, and private laboratories; supports public safety programs (implied consent/breath alcohol); and supervises certifications and operations of breath alcohol analyzers. The SPHL will serve as the state reference laboratory for the Department of Health and Senior Services' Division of Cannabis Regulation. Many programs within state government require routine and specialized public health laboratory services to support their objectives in protecting the health of the public and in supporting programs that assure the health of communities.

This NDI is for Missouri Public Health Services (MOPHS) fund authority increase for State Public Health Laboratory newborn screenings and onsite wastewater program staffing.

1) Newborn screening at the State Public Health Laboratory (SPHL) \$578,177. The SPHL is authorized per Section 191.331 to 191.333, RSMo., to conduct laboratory screening of all Missouri newborns for various genetic disorders. On average, inflationary costs for testing supplies and contractual expenses have risen approximately 8 percent annually. This includes rising costs associated with current tests being conducted as well as projected costs associated with migrating testing methodologies to new technology. The increase will enable SPHL to maintain the number of clients/customers served with this funding while continuing to provide life-saving results for Missouri's newborns. Additionally, the authority increase will allow the SPHL to increase and utilize the fee to accommodate for the rising costs.

2) Onsite Wastewater Program (OWP) \$65,535 and 1.00 FTE. The Onsite Wastewater Program (OWP) issues permits to sites and trains and licenses the professionals who install the onsite wastewater systems. The program is experiencing a significant increase in the number of permit and licensing request due to individuals shifting to working from home or moving to rural areas during the pandemic. This has resulted in more individuals registering for trainings courses, more renewals being processed, and additional permits being issued. The number of permits alone has nearly doubled. During fiscal year 2020, the program and local agency contracts issued 139 permits. During fiscal year 2021, 267 permits were issued. This growth has continued and has created a backlog of requests or long wait times for training courses. Additional resources are requested to meet this demand.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

The SPHL is requesting additional authority for expense and equipment costs to support Missouri newborn screening testing. Laboratory evaluation of current and projected newborn screening costs indicate an increase of \$578,177 or an approximate 8 percent increase in expenditures. This increase was derived by evaluating current and projected costs for laboratory supplies, courier, proficiency testing, reporting systems, and maintenance agreements. Laboratory supplies will increase by \$490,720; professional services (courier, proficiency testing, shipping) will increase by \$65,593; and maintenance and repair services (testing instrument maintenance, reporting systems) will increase by \$21,864. These increases are based on inflationary increases over the past two years as well as costs for a planned migration of testing methodology. Additional authority from the MOPHS fund is requested specifically to support the Onsite Wastewater and Communicable Disease programs. The Onsite Wastewater Program (OWP) requests additional authority to support a new Public Health Program Associate (1.00 FTE) and additional authority to support travel for the program and reduce the program's backlog or permit and licensing requests. This additional FTE will support ongoing operations of the program and reduce the time homeowners and professionals are waiting for permits and licenses.

### 2. CORE DESCRIPTION

This core funding supports staff and operations of the Division of Senior and Disability Services (DSDS). DSDS is comprised of four programmatic components:

- 1) Section of Home and Community Based Services (HCBS),
- 2) Section of Adult Protective Services (APS);
- 3) Bureau of Senior Programs; and
- 4) Office of Long Term Care Ombudsman.

DSDS plays a crucial role as the State Unit on Aging. It is the primary agency that oversees, monitors, and assures the health and safety of seniors and individuals with disabilities receiving long-term care in their homes or community as an alternative to facility-based care. DSDS investigates allegations of abuse, neglect, and financial exploitation of seniors and adults with disabilities; registers hotlines and regulatory complaints regarding care; informs individuals considering long-term care about home-based care options; provides oversight for eligibility determinations and authorizations of HCBS; advocates for resident rights and resolves complaints regarding nursing facility care; provides customer service to seniors and individuals with disabilities and their caregivers; and oversees the Older Americans Act funded programs administered by the Area Agencies on Aging.

Funding is utilized to support adult protective service activities, crisis intervention, complaint investigation, and HCBS administration, implementation, and quality assurance activities as mandated under Chapters 192, 197, 198, 208, 565, 570, and 660, RSMo; participation in six 1915(c) waivers through the Centers for Medicare and Medicaid Services; and the Older Americans Act.

### 2. CORE DESCRIPTION

This core funding provides temporary protective services for eligible adults who have been victims of abuse, neglect, or financial exploitation.

Division of Senior and Disability Services' staff authorize and arrange short-term services to allow individuals to remain in their homes and communities. The Adult Brain Injury (ABI) Program provides service coordination and community-based rehabilitation services. Participants of ABI are ages 21 to 65 living with a traumatic brain injury (TBI). Service coordination links the participants to resources to enable each person to obtain independent living goals, community participation, and/or employment. Participants may also receive community-based rehabilitation services to help achieve their identified goals. Rehabilitation services include counseling, vocational training, employment support, and transitional home and community-based support training. The Children and Youth with Special Health Care Needs (CYSHCN) Program provides service coordination for children under the age of 21 who meet medical eligibility criteria and provides limited funding for preventative, diagnostic, and treatment healthcare services for those children whose families also meet financial eligibility. This core also includes the Non-Medicaid Eligible (NME) Consumer Directed Services Program, which funds services to meet personal care needs for consumers who are not Medicaid eligible. Individuals must meet annual eligibility requirements regarding income and assets and need assistance with activities of daily living. State statute places a cap on this program and no new participants may be enrolled. The program is set to sunset on June 30, 2025.

**2. CORE DESCRIPTION**

Home and Community-Based Services (HCBS) State Plan Consumer Directed Services (CDS) afford Medicaid-eligible seniors and adults with physical disabilities control over and access to a full array of long-term services and supports in the community that promote independence, health, and quality of life.

Consumer Directed personal care assistance supports activities of daily living and/or instrumental activities of daily living provided as an alternative to nursing facility placement. The consumer is responsible for hiring, training, supervising, and directing the personal care attendant. The Division of Senior and Disability Services (DSDS) is responsible for HCBS level of care eligibility determination and service authorizations.

## FLEXIBILITY REQUEST FORM

<b>BUDGET UNIT NUMBER:</b> 790067B & 790069B <b>BUDGET UNIT NAME:</b> Division of Senior and Disability Services <b>APPROPRIATION BILL SECTION:</b> 10.910 & 10.915	<b>DEPARTMENT:</b> Department of Health and Senior Services <b>DIVISION:</b> Division of Senior and Disability Services
<b>1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.</b>	
<b>DEPARTMENT REQUEST</b>	
The Department requests continuation of ten percent (10%) flexibility between Consumer Directed and Agency Directed Services that the Legislature approved for SFY 2025. Participant choice between the Consumer Directed and Agency Model programs make it difficult to estimate which budget line the Medicaid expenditures will incur under.	
<b>2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.</b>	
<b>PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED</b>	<b>CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>
\$1,857,845	AB 10.910 and 10.915 language allows up to ten percent (10%) flexibility between Consumer Directed and Agency Directed Services.
<b>BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>	
Expenditures will differ annually based on needs to cover operational expenses, address emergency and changing situations, etc. In addition, the level of Governor's reserve, restrictions, and core reductions impact how the flexibility will be used, if at all. The Department's requested flex will allow the Department to utilize available resources in the most effective manner as the need arises. The Department cannot predict how much flexibility will be utilized.	
<b>3. Please explain how flexibility was used in the prior and/or current years.</b>	
<b>PRIOR YEAR EXPLAIN ACTUAL USE</b>	<b>CURRENT YEAR EXPLAIN PLANNED USE</b>
The Department utilized this flex for fund 2444 expenditures for approved initiatives in SFY 2024.	It appears the Department does not have enough existing federal authority in SFY 2025 for either AB 10.910 or AB 10.915; therefore, a flex between the two sections is likely to be utilized until such time a supplemental may be approved to avoid payment delays for service providers.

### 2. CORE DESCRIPTION

Home and Community-Based Services (HCBS) allows Medicaid-eligible seniors and individuals with physical disabilities access to a variety of long-term services and supports in the community that promote independence, health, and quality of life in their community or the least restrictive setting.

HCBS may include personal care, attendant care, nurse visits, adult day care, homemaker, respite, home-delivered meals, specialized medical/adaptive equipment, medical supplies, private duty nursing, health screenings, and subsequent treatment for identified health problems. Service options may vary depending on specific qualifying criteria for each HCBS option. The Division of Senior and Disability Services (DSDS) is responsible for HCBS eligibility determination and authorization. DSDS manages HCBS benefits authorized under the Medicaid State Plan and administers six 1915(c) waivers (Aged and Disabled Waiver, Adult Day Care Waiver, Independent Living Waiver, Structured Family Caregiving Waiver, Traumatic Brain Injury Waiver, and Medically Fragile Adults Waiver) that provide HCBS benefits to seniors and individuals with disabilities who would otherwise be eligible to receive care in a skilled nursing facility or intermediate care facility. The Division of Community and Public Health (DCPH) administers the AIDS Waiver to individuals with serious medical needs who would otherwise be eligible to receive care in an intermediate care facility. This core also contains funding to reimburse providers for annual reassessments of participants as required by Section 208.906, RSMo.

## FLEXIBILITY REQUEST FORM

<b>BUDGET UNIT NUMBER:</b> 790067B & 790069B <b>BUDGET UNIT NAME:</b> Division of Senior and Disability Services <b>APPROPRIATION BILL SECTION:</b> 10.910 & 10.915	<b>DEPARTMENT:</b> Department of Health and Senior Services <b>DIVISION:</b> Division of Senior and Disability Services
<b>1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.</b>	
<b>DEPARTMENT REQUEST</b>	
The Department requests continuation of ten percent (10%) flexibility between Consumer Directed and Agency Directed Services that the Legislature approved for SFY 2025. Participant choice between the Consumer Directed and Agency Model programs make it difficult to estimate which budget line the Medicaid expenditures will incur under.	
<b>2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.</b>	
<b>PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED</b>	<b>CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>
\$1,857,845	AB 10.910 and 10.915 language allows up to ten percent (10%) flexibility between Consumer Directed and Agency Directed Services.
<b>BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>	
Expenditures will differ annually based on needs to cover operational expenses, address emergency and changing situations, etc. In addition, the level of Governor's reserve, restrictions, and core reductions impact how the flexibility will be used, if at all. The Department's requested flex will allow the Department to utilize available resources in the most effective manner as the need arises. The Department cannot predict how much flexibility will be utilized.	
<b>3. Please explain how flexibility was used in the prior and/or current years.</b>	
<b>PRIOR YEAR EXPLAIN ACTUAL USE</b>	<b>CURRENT YEAR EXPLAIN PLANNED USE</b>
The Department utilized this flex for fund 2444 expenditures for approved initiatives in SFY 2024.	It appears the Department does not have enough existing federal authority in SFY 2025 for either AB 10.910 or AB 10.915; therefore, a flex between the two sections is likely to be utilized until such time a supplemental may be approved to avoid payment delays for service providers.

This NDI funding is requested to continue providing Home and Community Based Services (HCBS) for Medicaid participants receiving long-term care in their homes and communities. HCBS includes Medicaid State Plan Personal Care, Independent Living Waiver, Adult Day Care Waiver, Aged and Disabled Waiver, Medically Fragile Adult Waiver, and the Healthy Children and Youth Program administered by the Division of Senior and Disability Services; and the AIDS Waiver administered by the Division of Community and Public Health. Funding is requested to cover anticipated costs due to an increased number of eligible individuals utilizing the program and an increased amount of services per client. This request is not associated with expansion of the program or eligibility requirements. The federal authority for this program is the Social Security Act Sections 1894, 1905(a)(7), 1905(a)(24), 1915(c), and 1934; 42 CFR 440.130, 440.170(f), 440.180, 440.210 and 460. The state authority for this program is Sections 208.152, 208.168, and 192.2000.1., RSMo.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? The FY 2026 available core amounts for House Bill Section 10.815 HCBS In-Home Services are \$238,199,813 in general revenue and \$376,938,138 in federal funds for a total of \$615,137,951. The FY2026 projected needs are \$227,671,946 in general revenue and \$417,046,562 in federal funds for a total need of \$614,193,366. After the application of FMAP, there is a shortfall of \$45,922,937 in federal funds.

The FY 2026 available core amounts for House Bill Section 10.810 HCBS Consumer-Directed Services are \$242,570,288 in general revenue and \$422,287,092 in federal funds for a total of \$664,857,380. The FY 2026 projected needs are \$255,754,909 in general revenue and \$466,114,548 in federal funds for a total need of \$721,869,457. After the application of FMAP, this causes a shortfall of \$5,202,752 in general revenue and \$51,809,325 in federal funds. The total shortfall is projected to be \$57,012,077. A core reallocation has been requested between 10.810 and 10.815 to address the shortfall in General Revenue.

### 2. CORE DESCRIPTION

The Division of Senior and Disability Services (DSDS) operates Missouri's Medicaid-funded Home and Community Based Services (HCBS) program, which serves 65,000 Missourians and rapidly grows as the population ages.

The American Rescue Plan Act awarded states a temporary enhanced federal match percentage (FMAP) for all HCBS services. The State received a 10 percent temporary increase from 4/1/21 to 3/31/22 for specified HCBS offered across DHSS, DMH, and DSS. To be eligible for the FMAP increase, the State cannot use the funding increase to supplant state funding and must use it for one or more activities to enhance, expand, or strengthen HCBS. This section funds specific initiatives to enhance HCBS within DSDS utilizing the HCBS enhanced FMAP Fund.

**2. CORE DESCRIPTION**

TAFP SB 275 from the 2019 legislative session created the Senior Services Growth and Development Program within the Department of Health and Senior Services (DHSS). Funding for the program will be collected by Department of Revenue and is provided by a transfer of five percent of certain premium taxes collected by the state on January 1st each year. Funding is to be utilized solely for enhancing senior services provided by Area Agencies on Aging (AAA) of which 50 percent must be applied to development and expansion of senior center programs, facilities, and services. DHSS disburses the funding to the AAAs utilizing the current federally required and approved intrastate funding formula.

**3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

This NDI requests ongoing transfer authority so that a full transfer can be made for the benefit of the Area Agencies on Aging on an annual basis to develop and expand services in accordance with state statute. TAFP SB 275 from the 2019 legislative session created the Senior Services Growth and Development Program within the Department of Health and Senior Services (DHSS). The Senior Services Growth and Development Program (SSGDP) Fund was established pursuant to Section 192.385.4, RSMo, to provide additional funding for senior services delivered through the area agencies on aging (AAA) in this state. Funding is to be utilized solely for enhancing senior services provided by AAAs of which 50 percent must be applied to development and expansion of senior center programs, facilities, and services. DHSS will disburse the funding to the AAAs utilizing the current federally approved intrastate funding formula.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

TAFP HB 2010 for FY 2025 includes a transfer of \$9.2 million, of which \$9.2M was one-time transfer authority, into the SSGDP Fund. In FY 2025, the calculated transfer amount exceeded the current authority for the transfer by approximately \$700K.

Pursuant Section 192.385.4, RSMo, this is an annual ongoing transfer. DHSS requests an annual ongoing transfer authority of \$10,618,433.

### 2. CORE DESCRIPTION

This core decision item funds services and programs for seniors administered via contracts with the ten Area Agencies on Aging (AAAs).

Federal Older Americans Act (OAA) funded grants pass through the Department of Health and Senior Services to the AAAs to provide senior programs, including congregate and home-delivered meals, and services to help prevent unnecessary or premature long-term care facility placement. Acting as the designated state unit on aging, the Division of Senior and Disability Services (DSDS) is responsible for monitoring AAA compliance with OAA mandates and providing technical assistance to enhance program operations. The AAAs and DSDS maintain a close working relationship throughout the state to collaborate when necessary to sustain a coordinated network of aging services. DSDS allocates Older Americans Act - Title III funds to the ten AAAs using a federally approved intrastate funding formula based on mandated criteria and information about the demographics of Missourians age 60 and over. Outside funding including community funds, grants, and contributions are also utilized. Additionally, persons receiving services are invited to voluntarily and confidentially contribute toward the cost of the service.

**2. THIS REQUEST CAN BE CATEGORIZED AS:**

**3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

Missouri's ten Area Agencies on Aging (AAAs) were awarded over \$48 million in COVID-19 funding since SFY 2020, in addition to their regular Older Americans Act (OAA) federal funding which remained at a level award annually. This influx in federal funding has not only led to increased services for older adults across the state, but also in greater carryover in their regular OAA federal funding. To allow the AAAs to expend carryover funding currently awarded from the US Department of Health and Human Services in a timely manner and to avoid returning grant dollars dedicated for senior services back to the federal government, DHSS requests an NDI of \$4M federal funds. This NDI will also ensure all AAA invoices to DHSS for reimbursement are paid timely and do not cause a disruption to services for seniors.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

While some payments were able to be switched over to ARPA funding in an effort to spend those awards down to avoid holding invoices for payment, some AAA invoices had to be held to be paid in SFY 2025 once federal appropriations were available. In total, DHSS was unable to expend \$10.3M federal funds invoiced by the AAAs for SFY 2024 because of insufficient federal authority. This invoiced amount is now pushed into SFY 2025.

While DHSS received an NDI granting more federal appropriation authority for SFY 2025, the appropriation authority will not be enough to cover anticipated invoices received for payment during SFY 2025 based on the first quarter of expenditures. The lack of a supplemental appropriation in SFY 2024, having to expend ARPA funds earlier than AAAs were planning for, and having to hold invoices to be paid in SFY 2025 has compounded the issue further. In order to ensure enough appropriation authority to cover the SFY 2024 invoices held over to SFY 2025, the amount of carryover from federal funds available, and the amount of federal funds being awarded in SFY 2025, an NDI for \$4M is necessary for SFY 2026.

If an SFY 2026 federal fund NDI is not received, DHSS will be unable to reimburse AAAs for services rendered which may impact seniors receiving home-delivered and congregate meals, transportation, in-home services, etc. Without this NDI authority, the department is also at risk of returning \$14.7M to the federal government due to the expiration of awards for services already identified and subawarded via contracts to AAAs.

**2. CORE DESCRIPTION**

DSDS received \$15.1M Budget Stabilization Funds (enhanced Federal Medical Assistance Percentage-FMAP) to expand the infrastructure and capacity of AAA home-delivered meals in FY 2023.

This was originally envisioned as a 2-3 year project as AAAs are purchasing buildings, buying large equipment, and renovating spaces. The funding source has no time limitation for expending the funds, but the dollars were coded as one-time funding in the FY 2024 budget bill. Per budget instructions, the department core reduced all remaining funding in the FY 2025 department request. Since that time, the department has continued to communicate with the AAAs on the progress of the projects they are pursuing. As a result, it is estimated that a small portion of the original appropriation will be needed in FY 2025 to complete those projects.

Expenditures will differ annually based on needs to cover operational expenses, address emergency and changing situations, etc. In addition, the level of Governor's reserve, restrictions, and core reductions impact how the flexibility will be used, if at all. The Department's requested flex will allow the Department to utilize available resources in the most effective manner as the need arises. The Department cannot predict how much flexibility will be utilized.	
<b>3. Please explain how flexibility was used in the prior and/or current years.</b>

### 2. CORE DESCRIPTION

This core funding provides reimbursement for contracted assistance programs for persons with Alzheimer's and other dementia-related diseases and their families or caregivers, including caregiver respite grants, education, caregiver training programs, and assistive safety devices.

Alzheimer's disease is an irreversible, progressive brain disorder that slowly destroys memory, thinking skills, and eventually the ability to carry out the simplest tasks.

The biggest risk factor for dementia is aging. This means as a person gets older, their risk of developing dementia increases a lot. For people aged between 65 and 69, around 2 in every 100 people have dementia. A person's risk then increases as they age, roughly doubling every five years. By 2025, the number of people 65 and older with Alzheimer's disease is estimated to reach 7.1 million, almost a 27 percent increase from the 5.6 million affected in 2019. By 2050, the projected number will grow to 12.7 million. Alzheimer's is the sixth leading cause of death in Missouri.

### 2. CORE DESCRIPTION

This core funds the Senior Independent Living Program (SILP) (formerly Naturally Occurring Retirement Community or NORC), which establishes programs, supports, and services within four local communities allowing seniors in the designated geographic areas to remain in the community rather than entering a long-term care facility.

These programs support the healthy aging of older adults through increased community involvement and easy access to services that include transportation; socialization and education; assistance with household maintenance; healthcare; and volunteer opportunities.

The SILP model promotes healthy aging, independence, and community building for adults 60 and older in a designated service area through a multi-faceted approach. The key elements consist of case management and social work services; health care management and prevention programs; education, socialization, and recreational activities; and volunteer opportunities for the community to assist members of the SILP with household tasks. SILP's allow for aging in place with greater dignity, independence, and quality of life.

**2. CORE DESCRIPTION**

This core funding is used to assist frail senior immigrants and refugees who have lawfully resided in Missouri for at least five years and cannot complete the normal naturalization process due to health barriers.

Becoming a citizen allows these individuals to obtain federal benefits they would not otherwise qualify for after their initial 84-month eligibility period in the United States. These federal benefits, such as Medicare and Supplemental Security Income, relieve the financial obligation to state resources such as Medicaid

**3. PROGRAM LISTING (list programs included in this core funding)**

Naturalization Assistance.

### 2. CORE DESCRIPTION

The Division of Regulation and Licensure (DRL) coordinates licensing and regulation for a variety of entities providing services that impact public health and safety. Within this core is licensing (and certification for Medicare and Medicaid) programs including long term care facilities (residential care facilities, assisted living facilities, intermediate care facilities, and skilled nursing facilities), adult day care providers, hospitals, ambulatory surgical centers, clinical laboratory services, mammography services, end stage renal dialysis centers, rural health clinics, home health agencies, hospices, outpatient physical therapy providers, comprehensive outpatient rehabilitation facilities, emergency medical technicians (basic, intermediate, and paramedic), air and ground ambulance services, trauma centers, stroke centers, ST-segment elevation myocardial infarction (STEMI) centers, and health care staffing agencies.

**CORE DECISION ITEM**

**Dept Of Health & Senior Services**

**Budget Unit 790084B**

**Regulation and Licensure**

**CORE - Regulation and Licensure Program Operations**

**Bill Section 10.1000**

Further, the Division registers persons and businesses that manufacture, distribute, prescribe, or dispense controlled substances. The Family Care Safety Registry provides background screening results for employees in the childcare and elder care industries. The Board of Nursing Home Administrators test and license nursing home administrators. The Missouri Health Facilities Review Committee administers the Certificate of Need Program to achieve the highest level of health care for Missourians through cost containment, reasonable access, and public accountability. Division staff support complaint investigation, licensure, and survey/inspection activities required under Chapters 190, 192, 195, 197, 198, 210, 344, and 660, RSMo; various sections of 21 CFR and 42 CFR; the Mammography Quality Standards Act; the Clinical Laboratory Improvement Amendments; the Social Security Act (Medicare and Medicaid), and conditions of participation in the Medicare 1864 agreement with the Centers for Medicare and Medicaid Services.

**NEW DECISION ITEM****RANK: OF****Department of Health and Senior Services****Budget Unit 790084B, 790002B****Division of Regulation and Licensure****PPEC Program****Bill Section 10.1000 and 10.605****DI# NOP.79B.001**

Beginning August 28, 2025, childcare facilities licensed by the Department of Elementary and Secondary Education (DESE) that wish to operate as a Prescribed Pediatric Extended Care (PPEC) facility are required to obtain a license issued by the Department of Health and Senior Services (DHSS) (Section 192.2552, RSMo.). DHSS is tasked with licensing and inspecting PPEC facilities, along with promulgation of rules and regulations to establish standards of service and care (Section 192.2554.1, RSMo.). Upon submission of a State Plan Amendment by the Department of Social Services (DSS) and approval by the Centers for Medicare and Medicaid Services (CMS) the PPEC facility model would be created as a new home and community-based service under Missouri's Medicaid program, which the Division of Senior and Disability Services (DSDS) would administer. The PPEC facility licensing, inspection, and complaint investigation duties of the PPEC Program will be housed in the Bureau of Home Care and Rehabilitative Standards (HCRS) within the Division of Regulation and Licensure's (DRL), Section for Health Standards and Licensure (HSL).

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

In addition to the promulgation of regulations for standards of service and care, the PPEC Program will require the creation of an application process. Applications will have to be processed, facilities will be visited and inspected, and there will be an annual licensing and inspection process, along with the investigation of any complaints received. DSDS estimates that 36 participants will be served by four (4) PPEC facilities statewide (to be located in: St. Louis, Jefferson City, Kansas City, and Springfield). The Bureau of Home Care and Rehabilitative Standards (HCRS) assumes one (1) full-time Registered Nurse at an annual starting salary of \$78,792 will be needed to operate the PPEC Program. An estimated \$78,792 will be needed to cover the cost of PS for the requested FTE. It is estimated an additional \$36,710 will be needed for expense and equipment. The cost of this New Decision Item is fully offset by a Core Reduction in the Home and Community Based Services Program budget Section 10.915.

**Bill Section 10.1000**

The Division of Regulation and Licensure (DRL) is requesting \$365,000 in EE (\$118,627 in General Revenue and \$246,373 in Federal funds) to contract for two (2) Registered Nurses (RN), to allow Central Office Medical Review Unit (COMRU) to process applications within the required state and federal timeframes. Furthermore, the added personnel will allow the Division to be better able to train and provide assistance to nursing home providers, ensure timely admissions into nursing homes, and ensure timely discharge from hospitals to protect the health and well-being of Missourians.

In calendar year 2023, the Central Office Medical Review Unit (COMRU) only had two Registered Nurse FTEs to process over 17,934 level of care applications. Since the beginning of 2024, COMRU has been receiving 400 to 500 applications each week and received 27,360 applications and processed 26,692 Level of Care determinations calendar year 2024. As of the end of December 2024, COMRU had 520 applications pending. The oldest application pending was 12 working days old. Delays in processing have a direct impact on a nursing home's ability to receive Medicaid reimbursement to cover the cost of nursing home services. Delays in processing also have a direct impact on hospital discharges to nursing homes, specifically for those persons with an intellectual disability or severe mental illness.

In November 2023, the Department of Health and Senior Services (DHSS) transferred a vacant Registered Nurse position to COMRU and hired a new team member to assist with the review and approval of applications. Additionally, multiple employees have worked overtime, an additional 0.50 FTE has been assigned to assist the Unit full time, and a part-time hourly employee is in process of being hired. The COMRU supervisor has also presented multiple trainings, via webinar and through the nursing home associations to help reduce errors and corrections needed.

In addition to the level of care criteria evaluation, any person who has a suspected intellectual disability or severe mental illness must also receive an evaluation by the Department of Mental Health (DMH), prior to admission to a nursing home, to ensure a nursing home has the ability to meet the person's specialized needs. The evaluation by DMH must be completed prior to admission to a nursing home.

Per a memorandum of understanding with the Department of Social Services (DSS), the DHSS' Central Office Medical Review Unit (COMRU) reviews applications and supporting documentation to determine if a person meets the established level of care criteria.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

The Division of Regulation and Licensure (DRL) is requesting funds to contract for two (2) additional Registered Nurse (RN) to allow COMRU to process applications within the required state and federal timeframes. Furthermore, the added personnel will allow the Division to be better able to train and provide assistance to nursing home providers, ensure timely admissions into nursing homes, and ensure timely discharge from hospitals to protect the health and well-being of Missourians.

The Division utilized the number of applications processed in calendar year 2023, divided by the number of current full-time reviewers to develop an average number of assessments that can be completed in a calendar year. That number was divided into the number of applications anticipated in calendar year 2024 to obtain the number of employees needed to process the number of applications received within state timeframes. An estimated \$365,000 will be needed to cover the cost to contract for two Registered Nurse.

This request is not for new funding. This NDI request is to receive carry over funding in Fiscal Year 2026 for one-time appropriated funding for the Bureau of Narcotics & Dangerous Drugs (BNDD) monitoring database in fiscal year 2025. Due to delays in the ITSD charter process, the project contract will not be ready for bid until March/April 2025 and funds won't be expended until after the contract is awarded and required milestones are met. In Section 195.030.2, RSMo, within the Department of Health and Senior Services (DHSS), the BNDD is required by statute to maintain a registry of all entities with controlled substance authority. A state registration is needed before a federal DEA number can be obtained. The bureau receives over 35,000 applications and fees and issues registrations to 27 different types of licensees such as physicians, dentists, optometrists, veterinarians, hospitals, pharmacies, surgery centers, and distributors. The current database system is 11 years old and is having difficulty being maintained. A new database is required with up-to-date, commercially available software, so that changes can be implemented quickly as laws change. This needs to be completed before the current system crashes. If the current system were to crash, the DHSS would not be able to register people, and this would prevent them from practicing medicine and treating patients. The new database needs to be an online application, click to pay, and certificates printed from the website. Tabs are needed to track prior disciplines and investigation data. The DHSS would not have to use general revenue funds and would like to approach the Opiate Addiction Treatment Fund from the lawsuit settlement. The BNDD would like an NDI for up to \$1.7 million dollars to build a database. The database vendor would be contracted out and DHSS would not be asking for any new FTE. The database tracks the current prescribing authority of all medical practitioners and dispensing pharmacies, so that the bureau can run reports to check prescribing levels and look for red flags or outliers of suspicious prescribing habits.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

The DHSS would publish an RFP to bid out a contractor to build the database. DHSS would not be hiring any new FTE. The current staff will work with a vendor to design, plan, build, test, and implement a new database to allow applications and fees to be processed, disciplinary histories to be tracked, and investigation and inspection data. Previous new databases have taken approximately two years from the planning phase up through the final release. Costs are estimated up to \$1.7 million dollars. If the funding is approved, the funds would not come from general revenue, but from the Opiate Addiction Treatment lawsuit fund, for the managing of controlled substances in Missouri.

This request is not for new funding. This NDI request to have funds reappropriated in Fiscal Year 2026 that was appropriated in Fiscal Year 2025 as one-time funds to the Division of Regulation and Licensure (DRL) Supplemental Health Care Services Agency (SHCSA) to secure a reliable electronic program database to meet all program expectations. Due to the unknown future of the department's contract with ESRI and Qualtrics not meeting platform expectations, the Department is asking to carry over this funding to Fiscal Year 2026. Senate Bill 710, passed during the 2022 legislative session, requires the Department of Health and Senior Services (DHSS), Division of Regulation and Licensure (DRL), to create a program that monitors/audits and collects required items for registration of each supplemental health care services agency (SHCSA) that conducts business in Missouri health care facilities. The current registration application platform is housed in ESRI-ArcGIS. The department has met with the SHARE-MO group initiative within Office of Administration numerous occasions since August of 2024 regarding the possibility of utilizing Qualtrics as the solution for inspections and quarterly reporting platform. SHARE-MO is no cost to the department. However, based on a recent demonstration of the Qualtrics platform for SHCSA on December 6, 2024, it does not appear to meet the department's long-term platform expectations. Currently, SHCSA pulls registration data from ESRI-ArcGIS and manually enters data into Excel to track inspections. Box.com is used for document uploads from agencies during the inspection that is a secure upload tool only. The ESRI-ArcGIS contract with the department may not be renewed this fiscal year, resulting in the need for a new registration application platform and Qualtrics that does not meet the program expectations as initially expected. With six (6) months left in Fiscal Year 2025, seeking and securing an additional platform solution and expending the current funding by the end of Fiscal Year 2025 is not possible.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? The DHSS would publish an RFP to bid out a contractor to build the database. DHSS would not be hiring any new FTE. The current staff will work with a vendor to design, plan, build, test, and implement a new database to allow applications and fees to be processed, quarterly reporting surveys, and investigation and inspection data. Previous new databases have taken approximately two years from the planning phase up through the final release. Costs are estimated up to \$100,000 dollars. Funding was approved in Fiscal Year 2025 and if approved, would be rolled over to use in Fiscal Year 2026.

**2. CORE DESCRIPTION**

The Time Critical Diagnosis (TCD) program is a state-only volunteer program that designates hospitals, based on tier levels, as a Trauma, Stroke, or ST-segment elevation myocardial infarction (STEMI) center.

The program seeks to ensure that critically ill patients suffering from trauma, stroke, and certain types of heart attack (STEMI) get to hospitals that have the capacity to treat them more effectively.

### 2. CORE DESCRIPTION

The Quality Improvement Program for Missouri (QIPMO) is a cooperative service of the Department of Health and Senior Services (DHSS) and the University of Missouri Sinclair School of Nursing.

The service provides long-term care nursing facility staff with technical assistance and support separate from the DHSS survey process. The Sinclair School of Nursing utilizes gerontological nurse experts to work directly with long-term care nursing facility staff to help them learn best clinical practices, improve care delivery, and improve the outcomes for nursing home residents. Since its inception, a major focus is assisting staff to effectively apply the Resident Assessment Instrument (RAI) process to clinical care; then improve the quality of clinical care through monitoring process and outcomes with Quality Measures/Indicators (QM/QI) derived from the Nursing Home Minimum Data Set (MDS). An additional component of QIPMO is the Leadership Coaching for Nursing Home Administrators program. This program was created to assist nursing home administrators and key operational leaders in meeting the leadership challenges of the long-term care industry. The services offered focus on helping administrators deal effectively with the complex management issues faced each day in the business and personnel operations of long-term care facilities.

### 2. CORE DESCRIPTION

The Division of Cannabis Regulation issues and regulates licenses for cannabis facilities that serve both the medical and adult use populations of cannabis consumers to ensure safe product for these individuals.

In doing so, the Division contributes to controlling the commercial production and distribution of cannabis under a system that licenses, regulates, and taxes the businesses involved while protecting public health as authorized under Article XIV of the Missouri Constitution and associated rules 19 CSR 100-1.010 to 19 CSR 100-1.190. All fees and taxes received from the Adult Use Cannabis program are deposited into the Veterans, Health, and Community Reinvestment Fund.

## FLEXIBILITY REQUEST FORM

<b>BUDGET UNIT NUMBER:</b> 790109B <b>BUDGET UNIT NAME:</b> Adult Use <b>APPROPRIATION BILL SECTION:</b> 10.1010	<b>DEPARTMENT:</b> Department of Health and Senior Services <b>DIVISION:</b> Division of Cannabis Regulation
<b>1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.</b>	
<b>DEPARTMENT REQUEST</b>	
The Department requests continuation of ten percent (10%) flexibility between personal services and expense and equipment granted by the Legislature in FY 2026.	
<b>2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.</b>	
<b>PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED</b>	<b>CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>
\$0	AB 10.1010 language allows up to ten percent (10%) flexibility between personal services and expense and equipment.
<b>BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>	
Expenditures will differ annually based on needs to cover operational expenses, address emergency and changing situations, etc. Additionally, the level of Governor's reserve, restrictions and core reductions impact how the flexibility will be used, if at all. The Department's requested flex will allow the Department to utilize available resources in the most effective manner as the need arises. The Department cannot predict how much flexibility will be utilized.	
<b>3. Please explain how flexibility was used in the prior and/or current years.</b>	
<b>PRIOR YEAR EXPLAIN ACTUAL USE</b>	<b>CURRENT YEAR EXPLAIN PLANNED USE</b>

\$0	AB 10.910 language allows up to ten percent (10%) flexibility between personal services and expense and equipment.
<b>BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>	
Expenditures will differ annually based on needs to cover operational expenses, address emergency and changing situations, etc. Additionally, the level of Governor's reserve, restrictions and core reductions impact how the flexibility will be used, if at all. The Department's requested flex will allow the Department to utilize available resources in the most effective manner as the need arises. The Department cannot predict how much flexibility will be utilized.

### 2. CORE DESCRIPTION

The Division of Cannabis Regulation issues and regulates licenses for cannabis facilities that serve both the medical and adult use populations of cannabis consumers to ensure safe access to cannabis product for these individuals.

All fees and taxes received from the Adult Use Cannabis program are deposited into the Veterans, Health, and Community Reinvestment Fund. Per Article XIV, after the Division's operating expenses are paid and funds appropriated to governmental entities for carrying out responsibilities for expungement of criminal history records, then funds may be transferred to Missouri Veterans Commission and allied state agencies for healthcare and other services for military veterans and their dependent families; and for the Missouri Public Defender System for low-income eligible Missourians.

## 3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

Increases adult use cannabis revenue transfer authority based on expected revenue. On November 8, 2022, Missourians passed Constitutional amendment 3 which amends Article XIV to add Section 2. Marijuana legalization, regulation, and taxation. Article XIV creates in the state treasury the "Veterans, Health, and Community Reinvestment Fund" to consist of taxes and fees collected under the section within Article XIV.

## 4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? Provisions specify under Article XIV, section 2, that the Department of Revenue may retain up to two percent of collected tax prior to depositing into the Veterans, Health, and Community Reinvestment Fund. Facilities licensed under Article XIV, Section 2 shall be allowed approved credit for returns provided the tax remitted was paid on the returned items. The distribution of funds collected are defined, as follows:

- First, an amount necessary for the Department of Health and Senior Services to carry out its responsibilities in implementing Article XIV.
- Second, to governmental entities for carrying out responsibilities for expungement of criminal history records.
- Third, any remaining funds are then distributed in thirds to:
  - 1) Missouri Veterans Commission and allied state agencies for health care and other services for military veterans and their dependent families;
  - 2) Missouri Department of Health and Senior Services for grants to agencies and not-for-profits for evidence-based, low-barrier drug addiction treatment, and;
  - 3) Missouri Public Defender System for low-income eligible Missourians.

This NDI is to establish an additional transfer amount from the Veterans, Health, and Community Reinvestment Fund to the Missouri Veterans Commission, Missouri Department of Health and Senior Services for grants and the Missouri Public Defender after the Department has carried out its responsibilities in implementing Article XIV.

**2. CORE DESCRIPTION**

The Division of Cannabis Regulation facilitates safe access to marijuana for individuals with qualifying conditions by accepting and processing patient and caregiver applications and annual renewals for Medical Marijuana Identification cards.

In addition, the Division also accepts, processes, and awards medical marijuana facility licenses and conducts compliance inspections of medical licensed facilities as authorized under Article XIV of the Missouri Constitution and associated rules 19 CSR 100-1.010 to 19 CSR 100-1.190. All fees and taxes received from the medical marijuana program are deposited into the Veteran Health and Care Fund. After the Division's operating expenses are paid, remaining funds are transferred to The Missouri Veterans Commission by way of this transfer.
